- Increase Quantity: On Demand Customization
- New And Old Degree: Brand New
- Working Class: A5-A8
- Highlight: **steel port cranes, steel container gantry crane, .5 rpm port cranes**

## Product Description

### Product Description:

Our Port Cranes are designed to meet the needs of any harbour, with customizable colours and a sturdy steel construction that ensures optimal performance in any environment.

With a lifting height range of 6 to 150 metres, our Port Cranes are perfect for any job, whether you're unloading cargo from a ship or moving containers around the harbour.

Our Port Cranes come equipped with a state-of-the-art PLC control system, ensuring smooth, efficient operation and maximum safety for your workers. And with our commitment to quality, you can be sure that your Port Crane will provide reliable, long-lasting service for years to come.

So why wait? Contact Lucheng Co., Ltd today to learn more about our Port Cranes and how they can help you get the job done!

### Features:

Product Name: Port Cranes

Increase quantity: On Demand Customization

Model: LHM 420

Brand: Lucheng Co., Ltd

Slewing Speed: 1.5 Revolutions Per Minute

New and old degree: Brand New

Looking for reliable and efficient Harbour Cranes? Look no further than Port Cranes from Lucheng Co., Ltd. With the LHM 420 model, you can expect a slewing speed of 1.5 revolutions per minute and the assurance of a brand new product. Plus, with on demand customization, you can increase your quantity as needed. Trust in Port Cranes for all of your harbour crane needs.

### Technical Parameters:

Type	Port Cranes
Lifting height	6-150
Control System	PLC
Operation form	Air Operation/remote Operation
New and old degree	Brand New
colour	Customizable
Brand	Lucheng Co., Ltd
Applicable scope	Loading And Unloading Of Goods At Ports Such As Seaports/inland Ports
Increase quantity	On Demand Customization
Production country	China

### Applications:

Harbour cranes play a critical role in managing the flow of cargo in a port. The LHM 420 is the perfect tool for this task, with its high lifting capacity and versatile design. Whether you need to move containers, bulk cargo, or heavy machinery, this crane can handle the job with ease.

There are many occasions and scenarios where the LHM 420 port crane can be used. For example, it can be used to load and unload cargo from ships at the dock. This is a common scenario in seaports, where cargo needs to be transferred quickly and efficiently. The LHM 420 can also be used to move cargo between different areas of the port, such as from the dock to a storage facility.

In addition, the LHM 420 is ideal for handling heavy machinery and equipment. This can include cranes, vehicles, and other large items that need to be moved around the port. The crane's high lifting capacity and precise controls make it easy to move these items safely and efficiently.

Overall, the LHM 420 port crane is a versatile and reliable tool for managing cargo in a port. With its air operation and remote operation capabilities, it can be used in a variety of situations and scenarios. Whether you are working in a seaport or an inland port, this crane is an essential piece of equipment for managing cargo and ensuring that everything runs smoothly.

### Customization:

Type: Port Cranes

Colour: Customizable

Production Country: China

Lifting Height: 6---150

Control System: PLC

### Support and Services:

Our Port Cranes product comes with comprehensive technical support and services to ensure optimal performance and minimal downtime. Our team of experienced technicians and engineers are available for troubleshooting, maintenance, and repair services. We also offer customization and retrofitting services to meet the specific needs of our customers. Our training programs provide hands-on instruction for operators and maintenance personnel, ensuring safe and efficient operation of the equipment. Additionally, we offer remote monitoring and diagnostics services to proactively identify potential issues and prevent downtime. Contact us for more information on how we can support your Port Crane operations.
