

On Demand Port Cranes With 1.5RPM Slewing Speed Port Gantry Crane A5-A8

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Port Cranes
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Increase Quantity: On Demand Customization
- Model: LHM 420
- Production Country: China
- Type: Port Cranes
- Product Material: Steel Products
- Applicable Scope: Loading And Unloading Of Goods At Ports Such As Seaports/inland Ports
- Slewing Speed: 1.5 Revolutions Per Minute
- New And Old Degree: Brand New
- Working Class: A5-A8
- Highlight: **1.5rpm port cranes, 1.5rpm port gantry crane, steel port cranes**

Product Description

Product Description:

Our Harbour Cranes are brand new and come with the latest features and technologies that are designed to enhance performance, safety, and durability. We understand the importance of having reliable and efficient equipment in a port environment, which is why we offer only the best quality cranes that are built to withstand the harsh conditions of the sea and port environment.

We offer our customers the option to customize the cranes as per their requirements. This means that we can increase the quantity of the cranes based on the needs of the port. Our team of experts will work with the customers to design and build cranes that meet their exact requirements.

Overall, our Harbour Cranes are the perfect solution for any port looking for reliable and efficient equipment that can handle the demands of the modern-day port environment. With our brand new cranes, advanced control systems, and customizable options, we are confident that we can provide the perfect solution for your port's needs.

Features:

Product Name: Port Cranes

Slewing Speed: 1.5 Revolutions Per Minute

Product material: Steel Products

Lifting height: 6---150

Model: LHM 420

New and old degree: Brand New

Looking for reliable Harbour Cranes to handle your cargo? Look no further than Port Cranes! Our cranes are made from durable steel products and can lift up to 150 meters. With a slewing speed of 1.5 revolutions per minute, our LHM 420 model is perfect for any job. Plus, all our cranes are brand new, so you can trust in their reliability and performance.

Technical Parameters:

Model	LHM 420
Brand	Lucheng Co., Ltd
Colour	Customizable
New and old degree	Brand New
Production country	China
Applicable scope	Loading And Unloading Of Goods At Ports Such As Seaports/inland Ports
Slewing Speed	1.5 Revolutions Per Minute
Product material	Steel Products
Operation form	Air Operation/remote Operation
Lifting height	6---150

Applications:

The Port Cranes are widely used in various ports, including container terminals, bulk cargo terminals, and general cargo terminals. They are designed to withstand harsh weather conditions and are capable of handling heavy loads. The slewing speed of these cranes is 1.5 revolutions per minute, which makes them efficient in handling cargo.

Harbour cranes are used in many occasions and scenarios, including:

Container Terminals: Port Cranes are used for loading and unloading containers from ships. These cranes are used to move containers from the ship to the container yard and vice versa. The cranes are capable of handling multiple containers at a time, which makes the operation faster and more efficient.

Bulk Cargo Terminals: Port Cranes are used for loading and unloading bulk cargo such as grain, coal, and ore. The cranes are capable of handling large volumes of cargo, which makes them suitable for bulk cargo terminals.

General Cargo Terminals: Port Cranes are used for handling general cargo such as machinery, equipment, and vehicles. The cranes are capable of lifting heavy and bulky cargo, which makes them suitable for general cargo terminals.

In conclusion, the Port Cranes produced by Lucheng Co., Ltd are reliable and efficient equipment for loading and unloading operations in various ports around the world. They are made of high-quality steel products and equipped with a PLC control system, which makes them easy to operate and maintain. Harbour Cranes are essential equipment for handling cargo in ports, and the Port Cranes produced by Lucheng Co., Ltd are a great option for any port terminal.

Customization:

- Model: LHM 420
- Product material: Steel Products
- Type: Port Cranes (Harbour Cranes)
- Slewing Speed: 1.5 Revolutions Per Minute
- New and old degree: Brand New
