

PLC Customizable Harbour Cranes with 6-150m Lifting Height Steel structure

Our Product Introduction

for more products please visit us on port-crane.com

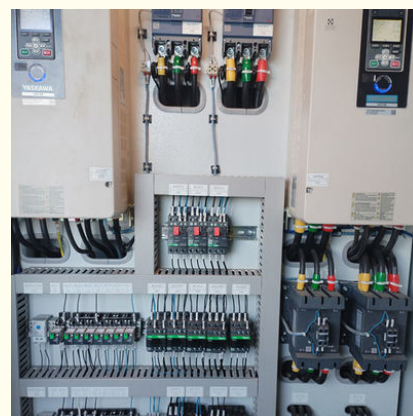

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Steel structure factory building
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

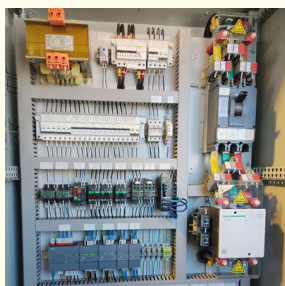

Product Specification

- Colour: Customizable
- Model: LHM 420
- Lifting Height: 6---150
- Type: Port Cranes
- Production Country: China
- Increase Quantity: On Demand Customization
- Brand: Lucheng Co., Ltd
- Control System: PLC
- Working Class: A5-A8
- Highlight: customizable harbour cranes,
plc harbour cranes, plc container cranes

Product Description

Product Description:

The Port Cranes come equipped with a state-of-the-art control system that ensures smooth and accurate operation. The PLC system ensures that every movement is precisely controlled, making sure that the crane operates safely and efficiently. This means that you can expect your Port Crane to work consistently, without the hassle of breakdowns or malfunctions.

The slewing speed of the Port Cranes is 1.5 revolutions per minute, allowing for fast and efficient loading and unloading of goods. This makes it one of the most efficient Harbour Cranes on the market, guaranteeing that your cargo will be handled with the utmost care and efficiency.

The model for these Harbour Cranes is the LHM 420, which is known for its high-quality and reliability. This model is built to withstand the toughest conditions, making it perfect for use in ports all over the world.

When you invest in the Port Cranes, you can be sure that you are getting a product that is built to last. These cranes are constructed from high-quality materials, ensuring that they are durable and long-lasting. This means that you can rely on your Port Crane to deliver high-performance results for years to come, without worrying about costly repairs or replacements.

The Port Cranes from Lucheng Co., Ltd are the perfect solution for anyone looking for a high-quality and reliable Harbour Crane. With their efficient control system, fast slewing speed, and reliable construction, these cranes are sure to provide excellent results every time they are used.

Features:

Product Name: Port Cranes

Slewing Speed: 1.5 Revolutions Per Minute

Brand: Lucheng Co., Ltd

Type: Harbour Cranes

Lifting Height: 6-150

Operation Form: Air Operation/Remote Operation

Technical Parameters:

Colour	Customizable
Production Country	China
New and Old Degree	Brand New
Control System	PLC
Operation Form	Air Operation/Remote Operation
Increase Quantity	On Demand Customization
Applicable Scope	Loading and Unloading of Goods at Ports such as Seaports/Inland Ports
Type	Harbour Cranes
Slewing Speed	1.5 Revolutions Per Minute
Model	LHM 420

Applications:

These cranes are essential for port operations, and they offer a range of benefits for businesses that handle large volumes of cargo. They are designed to handle heavy loads and can lift containers from ships, transport them across the port, and place them on trucks for transportation to their final destination.

The LHM 420 model is especially suitable for use in busy ports, where there is a high demand for cargo handling. Its air operation and remote operation features make it easy to operate, and its steel construction ensures durability and longevity.

Port cranes are used in a variety of scenarios, including:

- Unloading and loading cargo from ships

- Moving containers around the port

- Transferring containers from trucks to ships and vice versa

- Stacking containers in the port's storage yard

Port cranes play a crucial role in ensuring that goods are efficiently transported from one location to another. They are used in a wide range of industries, including shipping, logistics, and transportation.

In conclusion, the LHM 420 model of harbour cranes is an essential piece of machinery for any business involved in port operations. Its steel construction, slewing speed, and air operation/remote operation make it efficient and durable. It is designed to handle heavy loads and is suitable for use in a variety of scenarios. Port cranes are vital for the smooth operation of ports and the transportation of goods around the world.

Customization:

Our Port Cranes are made of high-quality steel products, ensuring durability and reliability for your operations in the harbour. With a slewing speed of 1.5 revolutions per minute, these cranes can efficiently handle heavy loads with ease.

We only offer brand new cranes from Lucheng Co., Ltd, a trusted brand in the industry. We also provide on-demand customization services to increase the quantity of your fleet. Our Harbour Cranes can be tailored to meet your specific needs and requirements to optimize your operations and increase efficiency.

Support and Services:

Our Port Cranes product comes with comprehensive technical support and services to ensure that your equipment operates at optimum performance. Our team of experienced engineers and technicians are available to provide technical assistance and troubleshooting to resolve any issues that may arise.

We offer a range of services to meet your needs, including:

- Installation and commissioning

- Preventive maintenance

- Emergency repairs

- Upgrades and modernizations

- Training and education

Our goal is to ensure that your Port Crane investment is always delivering maximum value and productivity. Contact us today to learn more about our technical support and services.
