

Wireless 380V Single Beam Crane 7KW-60KW For Your Industrial Needs

Our Product Introduction

for more products please visit us on port-crane.com

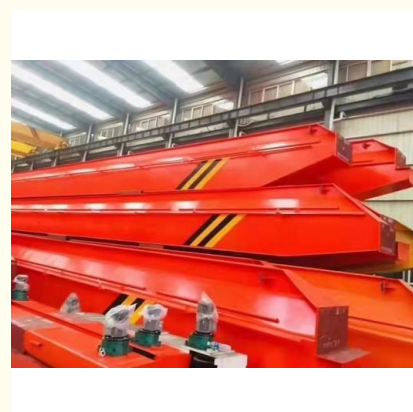

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Single Beam Crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- New And Old Degree: Brand New
- Applicable Scope: Workshop Production Loading And Unloading
- Operation Method: Wireless Remote Control
- Increase Quantity: On Demand Customization
- Power Supply Voltage: 380V
- Does It Support Processing Customization: Yes
- Brand: Lucheng Co., Ltd
- Production Country: China
- Working Class: A5-A8
- Highlight: 380v single beam crane, single beam crane 7kw, wireless single beam overhead crane

Product Description

Product Description:

The Single Beam Crane is manufactured in China, ensuring high-quality craftsmanship and durability. The crane is built to withstand harsh industrial environments and is designed to provide reliable performance for years to come. The crane operates using a power supply voltage of 380V, making it compatible with standard electrical systems found in most industrial settings. The crane is also equipped with remote-controlled operation, allowing operators to control the crane from a safe distance. The Single Beam Crane can be customized to meet your specific lifting requirements. If you need to increase the quantity of the crane, on-demand customization is available. This allows you to tailor the crane to your specific needs and ensures that you get the most out of your investment.

In summary, the Single Beam Crane is a powerful and reliable lifting solution that is designed to meet the demands of modern industrial applications. With its energy-efficient electric motor, durable construction, and remote-controlled operation, this crane is an excellent choice for any company looking to streamline their lifting processes.

Features:

Product Name: Single Beam Crane

Does it support processing customization: Yes

Type: Single Beam Crane

Production Country: China

Operation Method: Wireless Remote Control

Electric Power: 7KW-60KW

Technical Parameters:

Product Name:	Single Beam Crane
Operation Form:	Remote-controlled Operation
Increase Quantity:	On Demand Customization
Operation Method:	Wireless Remote Control
Working Range:	0-38M
Power Supply Voltage:	380V
Lifting Height:	20m
Applicable Scope:	Workshop Production Loading And Unloading
Processing Customization:	Yes
Production Country:	China
Electric Power:	7KW-60KW

Applications:

Our Single Beam Crane is ideal for use in various scenarios and occasions. It is perfect for industrial and commercial applications and can be used in factories, warehouses, and construction sites. With its 380V power supply voltage, this crane is able to handle heavy loads with ease.

Our crane is designed to be customizable and can be tailored to meet your specific needs. We offer an increase quantity option for on-demand customization to ensure that the crane you receive is perfect for your lifting tasks.

The wireless remote control operation method of our Single Beam Crane ensures that you can safely control the crane from a distance, minimizing the risk of accidents. With its single beam design, this crane is easy to install and operate, making it an ideal solution for businesses of all sizes.

Whether you need to lift heavy machinery, equipment, or materials, our Single Beam Crane provides a versatile and reliable solution. So why wait? Order your Single Beam Crane today and take your lifting tasks to the next level!

Customization:

Power supply voltage: 380V

Electric power: 7KW-60KW

Production country: China

New and old degree: Brand New

Operation method: Wireless Remote Control

Support and Services:

Our Single Beam Crane product comes with comprehensive technical support and services to ensure your satisfaction and success in using our product. Our team of experts is available to assist you with any technical issues you may encounter, and we provide training and installation services to guarantee a smooth and efficient set-up process. Additionally, we offer maintenance and repair services to keep your Single Beam Crane functioning at its best. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

The single beam crane will be securely packaged in a wooden crate to prevent damage during transportation.

All necessary components and hardware will be included in the package for easy assembly.

The package will also include an instruction manual for proper installation and use of the crane.

Shipping Details:

The package will be shipped via a reliable carrier to ensure timely and safe delivery.

The shipping cost will be calculated based on the destination and weight of the package.

Customers will receive a tracking number to monitor the shipment status and estimated delivery date.

Please note that additional fees may apply for expedited shipping or special delivery requirements.

FAQ:

A Single Beam Crane is a type of crane that consists of a single bridge beam supported by two end trucks.

Q: What is the maximum weight capacity of the Single Beam Crane?

The maximum weight capacity of the Single Beam Crane depends on the specific model and configuration. Please refer to the product specifications for more information.

Q: What is the standard span of the Single Beam Crane?

The standard span of the Single Beam Crane ranges from 5 meters to 30 meters. Custom spans are also available upon request.

Q: What is the lifting height of the Single Beam Crane?

The lifting height of the Single Beam Crane depends on the specific model and configuration. Please refer to the product specifications for more information.

Q: What safety features does the Single Beam Crane have?

The Single Beam Crane is equipped with various safety features, including overload protection, emergency stop buttons, and limit switches, to ensure safe and reliable operation. Additionally, regular maintenance and inspections are recommended to ensure continued safe operation.
