Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Single Beam Crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Brand: Lucheng Co., Ltd
- Electric Power: 7KW-60KW
- Working Range: 0-38M
- Production Country: China
- Increase Quantity: On Demand Customization
- Type: Single Beam Crane
- Applicable Scope: Workshop Production Loading And Unloading
- Operation Method: Wireless Remote Control
- Working Class: A5-A8
- Highlight: 60kw single beam overhead crane,
single beam overhead crane wireless,
7kw overhead crane single girder

Product Description

Product Description:

One of the key benefits of the Single Beam Crane is its ability to support processing customization. This means that customers can easily customize the crane to meet their specific needs, whether that be in terms of load capacity, lifting speed, or any other factor. With a range of different customization options available, customers can be sure that they are getting a crane that perfectly meets their requirements. The Single Beam Crane is also designed with safety in mind. It features a number of advanced safety features, including overload protection, emergency stop buttons, and more. This ensures that operators can safely and efficiently move heavy loads without risking injury or damage to equipment.

In addition to its impressive functionality and safety features, the Single Beam Crane is also highly durable and long-lasting. Made from high-quality materials and built to withstand even the toughest industrial conditions, this crane is sure to provide years of reliable service. In summary, the Single Beam Crane is a versatile, customizable, and reliable solution for workshop production loading and unloading tasks. With its impressive working range, lifting height, and safety features, this crane is the perfect choice for any industrial or commercial setting. So if you're looking for a high-quality crane that can handle even the toughest jobs, look no further than the Single Beam Crane!

Features:

Product Name: Single Beam Crane

Operation Method: Wireless Remote Control

Lifting Height: 20m

Processing Customization: Yes

Increase Quantity: On Demand Customization

Production Country: China

Technical Parameters:

Product Type:	Single Beam Crane
Electric Power:	7KW-60KW
Working Range:	0-38M
New and Old Degree:	Brand New
Operation Method:	Wireless Remote Control
Customization:	Yes
Production Country:	China
Power Supply Voltage:	380V
Lifting Height:	20m
Operation Form:	Remote-controlled Operation

Applications:

The Single Beam Crane is an ideal solution for workshops and production facilities, where it can be used for loading and unloading heavy goods, machinery, and equipment. Its powerful motor and sturdy construction make it a perfect choice for handling heavy loads with ease. The Single Beam Crane is also useful in warehouses and distribution centers, where it can be used for lifting and moving goods and products to different locations.

The Single Beam Crane is designed to operate on a power supply voltage of 380V, making it a suitable product for industrial applications. Its power supply voltage ensures that it can handle heavy loads and operate efficiently under challenging conditions.

The Single Beam Crane is customizable, and users can increase the quantity based on their specific needs. This feature makes it an excellent product for businesses that have varying load requirements. The Single Beam Crane can be customized to meet the lifting needs of different industries, including construction, manufacturing, and logistics.

The Single Beam Crane supports processing customization, which means that users can modify it to suit their specific requirements. This feature makes it an ideal product for businesses that have unique lifting needs and require a tailored solution. With processing customization, the Single Beam Crane can be modified to lift loads of different shapes, sizes, and weights.

The Single Beam Crane has a lifting height of 20m, making it suitable for lifting and moving goods and products to different levels. Its lifting height ensures that it can handle heavy loads with ease and transport them to the required location without any hassle.

In conclusion, the Single Beam Crane is a versatile product that finds its application in a wide range of scenarios and occasions. Its robust design, powerful motor, and customizable features make it an ideal solution for businesses that require a reliable and efficient lifting solution. Whether it is in a workshop, production facility, warehouse, or distribution center, the Single Beam Crane is the perfect product for all heavy-duty lifting jobs.

Customization:

Applicable scope: Workshop Production Loading And Unloading

Production country: China

Power supply voltage: 380V

Operation method: Wireless Remote Control

Type: Single Beam Crane

At our company, we understand that every customer's needs are unique. That's why we offer tailored customization services for the Single Beam Crane to suit your specific requirements. Whether it's the applicable scope, production country, power supply voltage, operation method, or type, we can customize our product to meet your needs. Contact us today to learn more about our Single Beam Crane customization services.

Support and Services:

Our Single Beam Crane product comes with comprehensive technical support and services to ensure optimal performance and efficiency. Our team of experts is available to assist with installation, maintenance, and repair of the product.
