

## 20m Lifting Wireless Remote Control Overhead Crane Single Girder For Workshop Production Loading And Unloading

Our Product Introduction

for more products please visit us on [port-crane.com](http://port-crane.com)

### Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Single Beam Crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

### Product Specification

- Lifting Height: 20m
- New And Old Degree: Brand New
- Working Range: 0-38M
- Production Country: China
- Operation Form: Remote-controlled Operation
- Does It Support Processing Customization: Yes
- Operation Method: Wireless Remote Control
- Increase Quantity: On Demand Customization
- Working Class: A5-A8
- Highlight: **20m overhead crane single girder, 20m single girder overhead crane, wireless overhead crane single girder**

## Product Description

### Product Description:

With electric power ranging from 7KW to 60KW, the Single Beam Crane can easily lift and move heavy loads with precision and ease. Its single beam design ensures maximum stability and support, making it a safe and reliable choice for any lifting job.

The Single Beam Crane is built with high-quality materials and advanced engineering, ensuring durability and long-lasting performance. It is also equipped with various safety features such as overload protection and emergency stop buttons, ensuring the safety of both the operator and the load.

Whether you're in the manufacturing, construction, or logistics industry, the Single Beam Crane is a versatile and efficient lifting solution that can help increase productivity and reduce manual labor. Its compact design also makes it easy to install and maintain, saving you time and money in the long run.

Invest in the Single Beam Crane from Lucheng Co., Ltd today and experience the benefits of a reliable and efficient lifting solution. Contact us now to learn more about this product and how it can help improve your workflow.

### Features:

Product Name: Single Beam Crane

Increase quantity: On Demand Customization

Power supply voltage: 380V

Does it support processing customization: Yes

Type: Single Beam Crane

Applicable scope: Workshop Production Loading And Unloading

### Technical Parameters:

Production country	China
Applicable scope	Workshop Production Loading And Unloading
Power supply voltage	380V
New and old degree	Brand New
Type	Single Beam Crane
Electric power	7KW-60KW
Lifting height	20m
Increase quantity	On Demand Customization
Operation form	Remote-controlled Operation
Brand	Lucheng Co., Ltd

## Applications:

One of the most convenient features of the Single Beam Crane is its remote-controlled operation form. This allows operators to control the crane from a safe distance, which is particularly useful when working with large or heavy loads that require careful positioning. Additionally, the remote control allows for more precise movements, which can help to reduce the risk of accidents or damage to the load. The Single Beam Crane is a brand new product, meaning that it is in excellent condition and has not been subjected to wear and tear. This makes it ideal for use in a variety of different industries, including manufacturing, construction, and logistics. Some specific scenarios where the Single Beam Crane may be useful include:

Lifting heavy machinery or equipment onto high shelves or platforms in a factory

Moving large building materials around a construction site

Transporting heavy goods in a warehouse or logistics center

Assisting with loading and unloading cargo from trucks or ships

Helping to assemble or disassemble large structures, such as scaffolding or temporary stages

Overall, the Single Beam Crane is a highly versatile and useful product that can be used in a variety of different applications. Whether you need to lift heavy items to high shelves, transport goods around a warehouse, or assist with construction or assembly projects, this crane is up to the task. With its remote-controlled operation and powerful lifting capabilities, the Single Beam Crane is a valuable addition to any industrial setting.

## Customization:

Customization Services for Single Beam Crane:

Increase quantity: On Demand Customization

Power supply voltage: 380V

Operation form: Remote-controlled Operation

Applicable scope: Workshop Production Loading And Unloading

Processing customization: Yes

Choose our Single Beam Crane for your workshop production loading and unloading needs. With our customization services, you can increase the quantity to meet your specific demands. The crane operates via remote control and has a power supply voltage of 380V.

Processing customization is also available to ensure the crane fits your unique requirements.

## Support and Services:

Our Single Beam Crane product technical support and services include:

Installation and commissioning support

Remote troubleshooting and diagnostics

On-site repair and maintenance services

Training for operators and maintenance personnel

Customized solutions for specific applications

Upgrades and retrofits for older models

Our team of experienced technicians and engineers are dedicated to providing top-notch technical support and services to ensure optimal performance and reliability of your Single Beam Crane.

## Packing and Shipping:

Product Packaging:

The single beam crane will be carefully packaged to ensure safe delivery. It will be packed in a sturdy wooden crate with foam padding to protect it during transportation. All necessary hardware and instructions will be included in the package.

Shipping:

Shipping will be handled by our trusted carrier partners. The package will be shipped within 3-5 business days of receiving the order.

Delivery times may vary depending on the destination, but we will provide you with a tracking number so you can track your package throughout the shipping process.

## FAQ:

A Single Beam Crane is a type of lifting equipment used in various industrial settings. It consists of a single horizontal beam supported by two vertical columns. It is designed to lift and move heavy loads from one location to another.

Q: What is the maximum weight capacity of the Single Beam Crane?

The maximum weight capacity of the Single Beam Crane is 10 tons.

Q: What is the lifting height of the Single Beam Crane?

The lifting height of the Single Beam Crane is 6 meters.

Q: What is the power source of the Single Beam Crane?

The power source of the Single Beam Crane is electricity.

Q: What safety features does the Single Beam Crane have?

The Single Beam Crane is equipped with various safety features such as overload protection, emergency stop button, limit switches, and a warning alarm. These safety features ensure the safe operation of the crane and prevent accidents.
