- New And Old Degree: Brand New
- Lifting Height: 20m
- Power Supply Voltage: 380V
- Applicable Scope: Workshop Production Loading And Unloading
- Type: Single Beam Crane
- Brand: Lucheng Co., Ltd
- Electric Power: 7KW-60KW
- Does It Support Processing Customization: Yes
- Working Class: A5-A8
- Highlight: unloading single beam crane,  
single beam crane 380v,

### Product Description:

The Single Beam Crane is a versatile machine that can be used for a variety of applications, including lifting heavy loads in warehouses, factories, and construction sites. It is a single beam crane, which means that it has a single girder that is mounted on two end trucks. This design ensures that the crane is lightweight and easy to maneuver, while still being able to handle heavy loads.

The Single Beam Crane is an excellent choice for businesses that require a reliable and efficient lifting solution. It is equipped with a remote control that allows the operator to control the crane from a safe distance, ensuring maximum safety and efficiency. The remote control is easy to use and provides precise control over the crane's movements.

One of the key features of the Single Beam Crane is its ability to support processing customization. This means that the crane can be customized to meet the specific needs of your business. Whether you require a larger or smaller crane, or if you need additional features or modifications, the Single Beam Crane can be tailored to your exact specifications.

When it comes to quality and durability, the Single Beam Crane from Lucheng Co., Ltd is second to none. It is made from high-quality materials and is built to withstand the rigors of heavy use. The crane is designed to provide years of reliable service, making it an excellent investment for any business that requires a dependable lifting solution.

In conclusion, the Single Beam Crane from Lucheng Co., Ltd is a top-of-the-line product that offers superior performance and reliability. It is a single beam crane that is designed for remote-controlled operation, making it a safe and efficient choice for businesses that require heavy lifting capabilities. With its ability to support processing customization, the Single Beam Crane can be tailored to meet the specific needs of your business. If you are in the market for a high-quality crane, the Single Beam Crane is an excellent choice.

Type	Single Beam Crane

## Applications:

The Single Beam Crane is an ideal solution for businesses that need to move heavy loads quickly and efficiently. The crane is designed to handle a wide range of loads and can be customized to fit your specific needs. This product is perfect for use in factories, warehouses, and other industrial environments where the efficient movement of heavy loads is essential.

The Single Beam Crane is a versatile and reliable product that can be used in a variety of different scenarios. Whether you need to move large pieces of equipment, raw materials, or finished products, this crane is up to the task. Its remote-controlled operation makes it easy to use and ensures that your employees can operate it safely and efficiently.

With on-demand customization, you can tailor the Single Beam Crane to meet your specific needs. Whether you need a larger crane, a smaller crane, or a crane with special features, Lucheng Co., Ltd can provide you with the customization options you need to get the job done.

The Single Beam Crane is a great investment for any business that requires a reliable and efficient crane system. With its remote-controlled operation, customizable options, and ability to handle a wide range of loads, this product is a must-have for any business that needs to move heavy loads quickly and efficiently.

So, if you're looking for a reliable and efficient solution for workshop production loading and unloading, look no further than the Lucheng Co., Ltd Single Beam Crane. Contact us today to learn more about our customization options and how we can help you meet your specific needs.
