

Wireless Single Girder Overhead Crane 380 V For Remote Controlled Operation Support

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Single Beam Crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Increase Quantity: On Demand Customization
- Type: Single Beam Crane
- Applicable Scope: Workshop Production Loading And Unloading
- Brand: Lucheng Co., Ltd
- Does It Support Processing Customization: Yes
- Power Supply Voltage: 380V
- New And Old Degree: Brand New
- Production Country: China
- Working Class: A5-A8
- Highlight: **wireless single girder overhead crane, single girder overhead crane 380 v,**

Product Description

Product Description:

The Single Beam Crane is a type of crane that is designed with a single beam that runs along the top of the crane. This beam is supported by two vertical columns at either end of the crane, and it is used to lift and move heavy loads. The single beam design makes this crane lightweight and easy to maneuver, while still providing the lifting capacity needed for heavy-duty applications.

One of the key features of the Single Beam Crane is its on-demand customization. This means that the crane can be customized to meet the specific needs of each customer. Whether you need a crane with a higher lifting capacity or a longer reach, the Single Beam Crane can be customized to meet your exact specifications.

At Lucheng Co., Ltd, we take pride in the quality of our products. Our Single Beam Crane is made with the highest quality materials and is built to last. We understand that our customers rely on our products to get the job done, which is why we go above and beyond to ensure that our cranes are reliable, durable, and efficient.

If you're in the market for a Single Beam Crane, look no further than Lucheng Co., Ltd. Our cranes are designed to meet the needs of today's industrial and construction applications, and our on-demand customization ensures that each crane is tailored to the specific needs of each customer. Contact us today to learn more about our Single Beam Crane and how it can benefit your business.

Features:

Product Name: Single Beam Crane

Electric Power: 7KW-60KW

Increase Quantity: On Demand Customization

Lifting Height: 20m

Operation Method: Wireless Remote Control

Type: Single Beam Crane

Technical Parameters:

New and old degree:	Brand New
Operation method:	Wireless Remote Control
Electric power:	7KW-60KW
Increase quantity:	On Demand Customization
Working range:	0-38M
Applicable scope:	Workshop Production Loading And Unloading
Type:	Single Beam Crane
Power supply voltage:	380V
Operation form:	Remote-controlled Operation
Processing customization:	Yes

Applications:

Manufacturing plants: The Single Beam Crane is ideal for lifting and moving heavy machinery and equipment in factories and assembly lines.

Construction sites: This crane is perfect for transporting materials and supplies to different levels of a building under construction.

Warehouses: The Single Beam Crane can be used to lift and move heavy goods and products in warehouses and storage facilities.

Ports and shipyards: This crane is suitable for loading and unloading cargo from ships and containers.

With its powerful electric motor and power supply voltage of 380V, the Single Beam Crane can handle a wide range of loads with ease. The electric power of 7KW-60KW ensures that it can operate efficiently and effectively, no matter the task at hand.

Another advantage of the Single Beam Crane is that it supports processing customization. This means that it can be tailored to meet the specific needs of different industries and applications. Whether you need a crane with a different lifting height, load capacity, or other features, Lucheng Co., Ltd can work with you to create a customized solution that meets your requirements.

In conclusion, the Single Beam Crane is a versatile and reliable piece of equipment that can be used in many different scenarios. Whether you need to lift heavy machinery in a factory or transport materials on a construction site, this crane from Lucheng Co., Ltd has the power and flexibility to get the job done.

Customization:

Choose the electric power that suits your needs, ranging from 7KW to 60KW.

Enjoy wireless remote control operation for added convenience.

Optimize your lifting height up to 20m and working range up to 38m.

Experience remote-controlled operation for improved efficiency.

Support and Services:

The Single Beam Crane product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our technical support team is available to assist with any inquiries or issues related to the product, including installation, operation, maintenance, and troubleshooting. Additionally, we offer preventive maintenance and repair services to minimize downtime and maximize productivity. Our team of experienced technicians is equipped with the latest tools and equipment to provide efficient and reliable service.

Contact us for more information on our technical support and services for the Single Beam Crane product.

Packing and Shipping:

Product Packaging:

The single beam crane will be packaged securely in a wooden crate to ensure safe delivery.

Additional padding and protective materials will be used to prevent any damage during transportation.

The package will also include an instruction manual and all necessary hardware.

Shipping:

The single beam crane will be shipped via ground transportation.

Shipping times will vary depending on the destination and any unforeseen delays.

A tracking number will be provided to the customer once the product has shipped.

FAQ:

Q: What is the maximum load capacity of the Single Beam Crane?

A: The maximum load capacity of the Single Beam Crane is 10 tons.

Q: What is the span of the Single Beam Crane?

A: The span of the Single Beam Crane is 20 meters.

Q: What is the lifting height of the Single Beam Crane?

A: The lifting height of the Single Beam Crane is 12 meters.

Q: What control methods are available for the Single Beam Crane?

A: The Single Beam Crane can be controlled using either a pendant or remote control.

Q: Is installation included with the purchase of the Single Beam Crane?

A: No, installation is not included with the purchase of the Single Beam Crane. However, we can provide installation services for an additional fee.
