

7KW-60KW Electric Power Single Girder Bridge Crane With 380V Power Supply

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Single Beam Crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Lifting Height: 20m
- Brand: Lucheng Co., Ltd
- Increase Quantity: On Demand Customization
- Production Country: China
- Type: Single Beam Crane
- Does It Support Processing Customization: Yes
- Operation Form: Remote-controlled Operation
- Applicable Scope: Workshop Production Loading And Unloading
- Working Class: A5-A8
- Highlight: **electric power single girder bridge crane, 7kw single girder crane,**

Product Description

Product Description:

As a brand new product, the Single Beam Crane is made with the latest technology and materials to ensure maximum durability and reliability. It is designed to meet the highest standards of quality and safety, making it the ideal choice for any industrial or commercial operation.

With a lifting height of 20m, the Single Beam Crane is capable of handling a wide range of loads with ease. Whether you need to lift heavy machinery or transport materials to a high level, this crane has the power and capacity to get the job done quickly and efficiently. One of the key features of the Single Beam Crane is its on-demand customization. This means that you can customize the crane to meet your specific needs and requirements. Whether you need to increase the lifting capacity or add additional features, our team of experts can work with you to design a crane that meets your exact specifications.

With an electric power range of 7KW-60KW, the Single Beam Crane is both powerful and energy-efficient. It is designed to provide maximum performance while minimizing energy consumption and operating costs, making it a cost-effective solution for any operation. Overall, the Single Beam Crane is a highly versatile and reliable lifting equipment that is perfect for a wide range of applications. Whether you need to lift heavy loads or transport materials, this crane is the perfect solution. With its remote-controlled operation, on-demand customization, and energy-efficient design, the Single Beam Crane is the ideal choice for any industrial or commercial operation.

Features:

Product Name: Single Beam Crane

Increase quantity: On Demand Customization

Applicable scope: Workshop Production Loading And Unloading

Electric power: 7KW-60KW

Processing customization: Yes

Working range: 0-38M

Technical Parameters:

Product Name:	Single Beam Crane
Power supply voltage:	380V
Production country:	China
Increase quantity:	On Demand Customization
Electric power:	7KW-60KW
Working range:	0-38M
Operation form:	Remote-controlled Operation
New and old degree:	Brand New
Does it support processing customization:	Yes
Applicable scope:	Workshop Production Loading And Unloading
Brand:	Lucheng Co., Ltd

Applications:

The Single Beam Crane is perfect for use in manufacturing and production facilities, where it can be used to move heavy loads between workstations or production lines. It is also ideal for loading and unloading goods in warehouses and distribution centers, where it can be used to move heavy items onto and off of trucks and other vehicles.

One of the key advantages of the Single Beam Crane is its ability to be customized to meet your specific needs. Whether you need a larger crane to handle heavier loads, or a smaller crane for use in tight spaces, the Single Beam Crane can be tailored to your exact requirements. This makes it a highly flexible and adaptable piece of equipment that can be used in a wide range of different scenarios. The Single Beam Crane is designed to be highly reliable and easy to operate. With its wireless remote control operation, it offers a high level of convenience and ease of use, allowing operators to control the crane from a safe distance. This makes it ideal for use in hazardous or difficult-to-reach areas, where safety is a top priority.

In summary, the Single Beam Crane is a highly versatile and customizable piece of equipment that is perfect for use in a wide range of industrial settings. Whether you need to move heavy loads in a manufacturing facility, or load/unload goods in a warehouse or distribution center, the Single Beam Crane is the perfect solution. With its wireless remote control operation and customizable design, it offers a high level of precision, control, and safety, making it an ideal choice for any industrial application.

Customization:

- Does it support processing customization: Yes
- Increase quantity: On Demand Customization
- Brand: Lucheng Co., Ltd
- Operation form: Remote-controlled Operation
- Type: Single Beam Crane

Get your Single Beam Crane customized to fit your needs with our on-demand customization services. Lucheng Co., Ltd ensures high-quality and reliable products that operate through remote-controlled operation. Don't settle for a standard product, customize your Single Beam Crane today!

Support and Services:

The Single Beam Crane product technical support and services include:

Installation guidance and support

Regular maintenance and inspections

Repairs and replacement of damaged components

Technical troubleshooting and problem-solving assistance

Training on proper usage and safety procedures

Our team of experienced technicians and engineers is dedicated to ensuring the optimal performance and safety of your Single Beam Crane.

Packing and Shipping:

Product Packaging:

The single beam crane will be packed in a sturdy cardboard box.

The product will be wrapped in bubble wrap for added protection during shipping.

All necessary hardware and instructions will be included in the package.

Shipping:

The single beam crane will be shipped via ground shipping.

Shipping costs will vary depending on the destination.

Estimated delivery time is 5-7 business days.

A tracking number will be provided once the product has shipped.

FAQ:

A: The lifting capacity of the Single Beam Crane ranges from 1 ton to 20 tons, depending on the specific model chosen.

Q: What is the maximum span of the Single Beam Crane?

A: The maximum span of the Single Beam Crane is 30 meters, but we can customize it according to your specific needs.

Q: What is the lifting height of the Single Beam Crane?

A: The lifting height of the Single Beam Crane can be customized according to your needs, but it typically ranges from 6 meters to 12 meters.

Q: What is the warranty period for the Single Beam Crane?

A: The warranty period for the Single Beam Crane is 12 months from the date of shipment.

Q: What is the power source for the Single Beam Crane?

A: The power source for the Single Beam Crane is typically electricity, but we can also customize it to run on diesel or other sources of power.
