

Customizable Tonnage Double Girder Eot Crane Price A5-A8 For Lifting Solutions

Our Product Introduction

for more products please visit us on port-crane.com

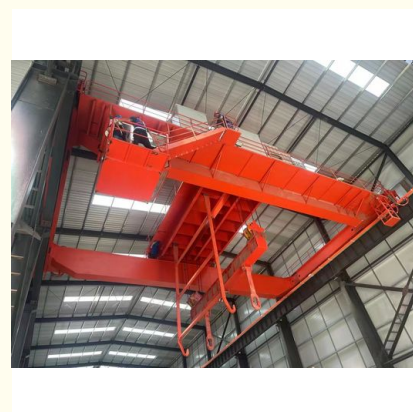

Basic Information

- Place of Origin: China
- Brand Name: Double beam crane
- Model Number: complete
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Tonnage: Customizable
- Applicable Scope: Industrial Factory Terminal
- Brand: Lucheng Co., Ltd
- Lifting Capacity: 5-500T
- Product Material: Steel Products
- Type: Double Beam Crane
- Operation Form: Remote-controlled Operation
- Lifting Height: 0-50m
- Working Class: A5-A8
- Highlight: **double girder eot crane price a5, a5 double girder gantry crane, a8 double girder gantry crane**

Product Description

Product Description:

One of the key features of the Double Beam Crane is its customizable tonnage. This means that the crane can be tailored to meet the specific lifting needs of your project. Whether you need to lift 5 or 500 tons, the Double Beam Crane has you covered. This makes it a versatile choice for a range of applications.

The lifting capacity of the Double Beam Crane ranges from 5 to 500 tons, making it ideal for heavy-duty lifting tasks. The crane is designed to lift heavy loads with ease, thanks to its powerful motor and sturdy construction. This makes it a reliable choice for industrial and construction projects.

The Double Beam Crane is also designed to lift loads to heights of up to 50 meters. This means that it can be used for a range of applications, from construction sites to industrial warehouses. The crane's lifting height can be adjusted to suit the specific needs of your project, making it a versatile choice for a range of applications.

In summary, the Double Beam Crane is a heavy-duty crane made from high-quality Steel Products. It is produced in China and is customizable in terms of tonnage. It has a lifting capacity of 5 to 500 tons and can lift loads to heights of up to 50 meters. Whether you need a crane for an industrial or construction project, the Double Beam Crane is a reliable choice.

Features:

Product Name: Double Beam Crane

Production country: China

Applicable scope: Industrial Factory Terminal

Product material: Steel Products

Brand: Lucheng Co., Ltd

Type: Double Beam Crane

Technical Parameters:

Operation form	Remote-controlled Operation
Lifting height	0-50m
Applicable scope	Industrial Factory Terminal
Production country	China
Brand	Lucheng Co., Ltd
Lifting capacity	5-500T
Processing customization	Yes
Type	Double Beam Crane
Product material	Steel Products
Increase quantity	On Demand Customization

Applications:

The Double Beam Crane is a remote-controlled operation product that makes it easy for operators to control the crane's movements from a safe distance. It also features a user-friendly interface that enables operators to control the crane's speed, direction of movement, and the lifting height with ease.

The Double Beam Crane is ideal for use in industrial factory terminals, where heavy-duty lifting and transportation are required. It is suitable for a wide range of applications, including material handling, storage, and logistics operations. It is also designed to handle various materials, including steel products, making it a versatile product for different applications.

One of the key features of the Double Beam Crane is its ability to support processing customization. This means that users can customize the crane to meet their specific needs and requirements. For example, they can add specific features or modify the crane's design to suit their particular application.

The Double Beam Crane is made of steel products, making it a durable and long-lasting product. It is designed to withstand harsh industrial environments and heavy loads, making it a reliable product that can be used for various applications.

In summary, the Double Beam Crane is a reliable and versatile product that is suitable for various industrial applications. It is a complete model that is designed to meet the needs of different users. Its remote-controlled operation, customization support, and steel material make it a top choice for heavy lifting and transportation operations.

Customization:

Double Beam Crane product:

Brand Name: **Double Beam Crane**

Model Number: **Complete**

Place of Origin: **China**

Type: **Double Beam Crane**
Increase Quantity: **On Demand Customization**
Applicable Scope: **Industrial Factory Terminal**
Production Country: **China**
Lifting Height: **0-50m**

Support and Services:

The Double Beam Crane is a heavy-duty lifting equipment designed for industrial use. Our product technical support and services include:

- Installation and commissioning of the crane
- Regular maintenance and repair services
- Operator training and certification
- 24/7 technical support hotline
- On-site inspections and consultations
- Customized solutions to meet specific customer needs

Our team of experienced technicians and engineers are dedicated to ensuring the safe and efficient operation of your crane, while also maximizing its lifespan and minimizing downtime. Contact us for more information on how we can assist you with your Double Beam Crane.

Packing and Shipping:

Product Packaging:

- Double Beam Crane
- Assembly Instructions
- Required Hardware
- Warranty Information

Shipping Information:

- Shipping Weight: 500 lbs
- Shipping Dimensions: 10ft x 4ft x 2ft
- Shipping Method: Freight
- Expected Delivery Time: 5-7 business days

FAQ:

Q: What is a double beam crane?

A: A double beam crane is an overhead crane with two parallel beams that are supported by end trucks on either side. This design allows for a greater lifting capacity and wider span than a single beam crane.

Q: What is the maximum weight capacity of the Double Beam Crane?

A: The maximum weight capacity of the Double Beam Crane varies depending on the model number. Please refer to the product specifications for more information.

Q: Where is the Double Beam Crane manufactured?

A: The Double Beam Crane is manufactured in China.

Q: What is included in the complete Double Beam Crane package?

A: The complete Double Beam Crane package includes the crane structure, end trucks, hoist, trolley, electrical components, and all necessary hardware and accessories.

Q: Can the Double Beam Crane be customized to fit my specific needs?

A: Yes, the Double Beam Crane can be customized to fit your specific needs. Please contact us for more information on customization options.
