

Production Double Beam Overhead Crane Working Class A5-A8 And Remote Controlled Operation

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Double Beam Crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Lifting Height: 0-50m
- Product Material: Steel Products
- Type: Double Beam Crane
- Production Country: China
- Tonnage: Customizable
- Does It Support Processing Customization: Yes
- Increase Quantity: On Demand Customization
- Brand: Lucheng Co., Ltd
- Working Class: A5-A8
- Highlight: a5 double beam bridge crane,
a5 double beam overhead crane,
a8 double beam bridge crane

Product Description

Product Description:

One of the key features of the Double Beam Crane is its remote-controlled operation form. With this feature, you can operate the crane from a safe distance, minimizing the risk of accidents and injuries. This makes the crane ideal for use in hazardous or hard-to-reach areas. Whether you're working in a factory, a construction site, or a warehouse, the Double Beam Crane can help you get the job done quickly, safely, and efficiently.

Another advantage of the Double Beam Crane is its processing customization support. This means that you can customize the crane to meet your specific lifting requirements. Whether you need a higher tonnage capacity, a longer lifting distance, or other modifications, the Double Beam Crane can be tailored to your needs. This makes it a versatile and flexible lifting solution that can adapt to your changing needs over time.

The Double Beam Crane is made of high-quality steel products, ensuring its durability and reliability. With its robust construction, the crane can withstand the rigors of heavy use and extreme environments. This makes it a cost-effective investment that can provide many years of dependable service.

In summary, the Double Beam Crane from Lucheng Co., Ltd is a versatile and reliable lifting solution that offers customizable tonnage capacity, remote-controlled operation, processing customization support, and high-quality steel construction. Whether you're lifting heavy loads in a factory, a construction site, or a warehouse, the Double Beam Crane can help you get the job done safely and efficiently.

Features:

Product Name: Double Beam Crane

Increase quantity: On Demand Customization

Tonnage: Customizable

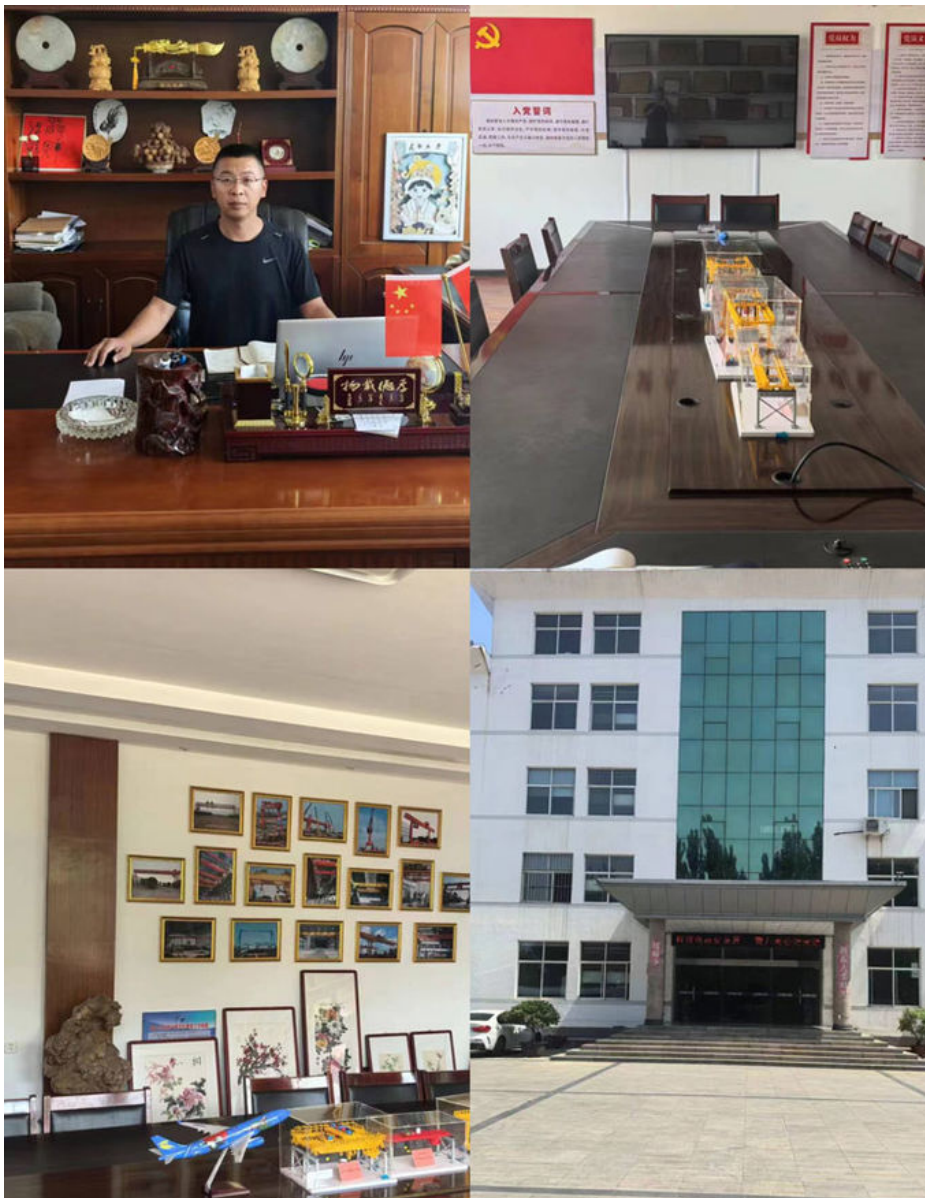

Brand: Lucheng Co., Ltd

Applicable Scope: Industrial Factory Terminal

Product Material: Steel Products

Technical Parameters:

Brand	Lucheng Co., Ltd
Lifting capacity	5-500T
New and old degree	Brand New
Product material	Steel Products
Applicable scope	Industrial Factory Terminal
tonnage	Customizable
Lifting height	0-50m
Operation form	Remote-controlled Operation
Processing customization support	Yes
Type	Double Beam Crane

Applications:

The Double Beam Crane is suitable for a variety of lifting applications. It can be used in warehouses, factories, construction sites, and other locations where heavy lifting is required. The crane is ideal for lifting heavy items such as machinery, vehicles, and building materials. The lifting height of the crane can be adjusted between 0 and 50 meters, making it suitable for use in tall buildings and structures.

The Double Beam Crane is designed to be safe and easy to use. The remote-controlled operation allows the operator to control the crane from a safe distance, reducing the risk of accidents. The crane is also equipped with safety features such as overload protection and emergency stop buttons, ensuring that the operation is safe and secure.

The Double Beam Crane is a reliable and durable product that is built to last. The high-quality steel products used in its construction ensure that it can withstand heavy loads and harsh operating conditions. The product is also customizable to meet specific user requirements, making it suitable for a wide range of lifting applications.

Overall, the Double Beam Crane is an excellent product that is suitable for a wide range of lifting applications. Its customizable tonnage, remote-controlled operation, and high lifting height make it an ideal choice for warehouses, factories, construction sites, and other locations where heavy lifting is required. Its reliable and durable construction ensures that it is a long-lasting investment for any business.

Customization:

Support and Services:

Our Double Beam Crane product comes with top-notch technical support and services to ensure optimal performance and minimal downtime. Our team of experienced technicians is available to provide assistance with installation, maintenance, and repairs, as well as troubleshooting any issues that may arise during operation.

We also offer training programs for operators and maintenance staff to ensure that they are knowledgeable about the proper use and care of the crane, as well as safety protocols to prevent accidents and injuries.

In addition, we provide regular inspections and preventative maintenance services to help extend the lifespan of the crane and minimize the need for costly repairs. Our goal is to provide comprehensive support and services to our customers to ensure that their Double Beam Crane operates efficiently and reliably for years to come.

Packing and Shipping:

Product Packaging:

The Double Beam Crane will be securely packaged in a wooden crate to prevent any damage during transportation. The crate will be sealed and clearly labeled with the product name and identification number for easy identification.

Shipping:

The Double Beam Crane will be shipped via freight carrier. The shipping cost will be calculated based on the destination and weight of the package. Once the package is shipped, the customer will receive a tracking number to monitor the shipment status.

FAQ:

Q: What is the Double Beam Crane?

A: The Double Beam Crane is a heavy-duty crane used in industrial settings for lifting and transporting heavy loads. It consists of two parallel beams that run the length of the crane, allowing for increased stability and weight capacity.

Q: What is the maximum weight capacity of the Double Beam Crane?

A: The maximum weight capacity of the Double Beam Crane depends on the specific model number, but all models are designed to handle heavy loads up to several tons.

Q: Where is the Double Beam Crane manufactured?

A: The Double Beam Crane is manufactured in China.

Q: What is included with the Double Beam Crane?

A: The Double Beam Crane comes complete with all necessary components, including the beams, trolley, hoist, and controls.

Q: Is installation and assembly included with the purchase of the Double Beam Crane?

A: No, installation and assembly are not included with the purchase of the Double Beam Crane. It is recommended that a professional installation service be used to ensure proper assembly and safe operation.
