

Grab Crane Is An Automatic Material Retrieval Machine 0-50m Lifting Height Grab Bucket Crane

Our Product Introduction

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Grab crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

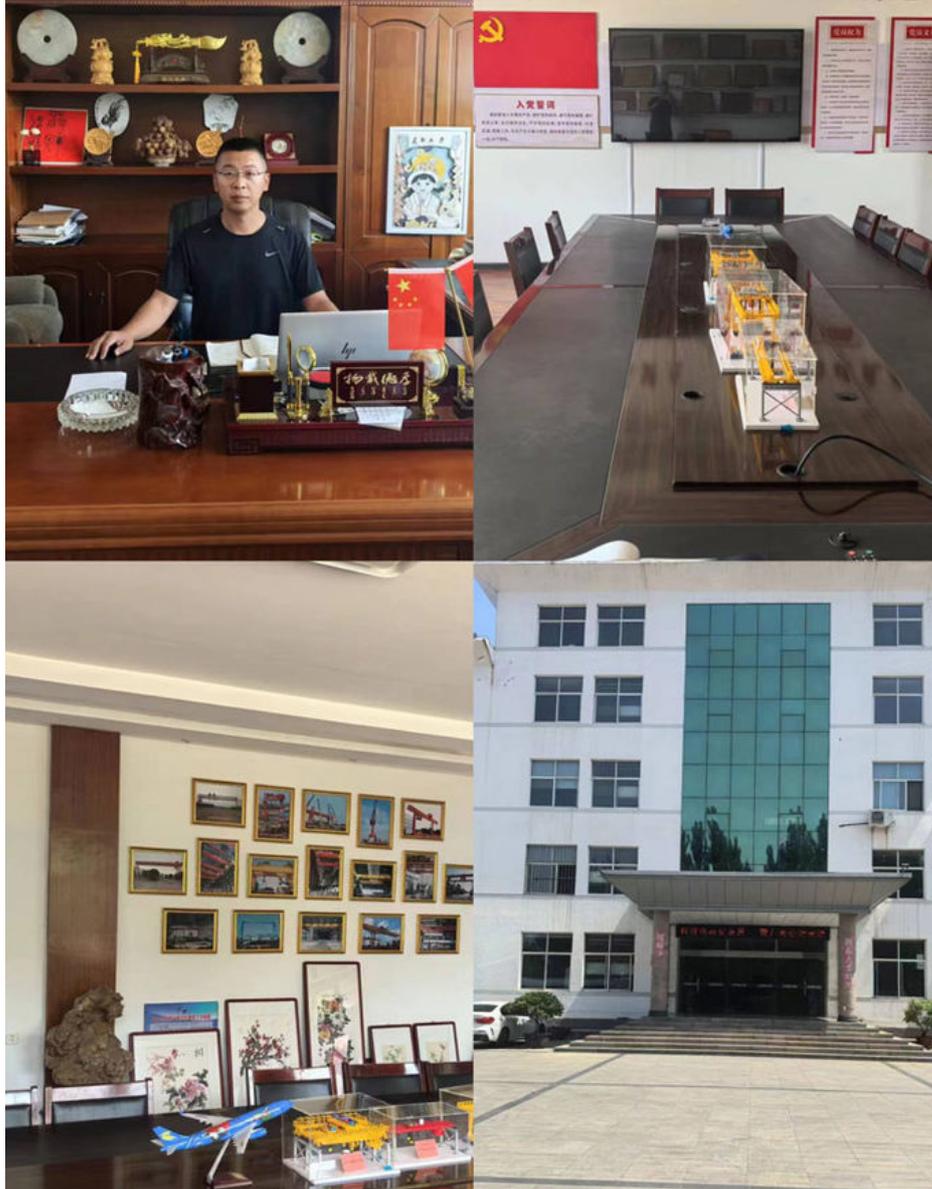

- Types Of: Grabbing Crane
- Production Country: China
- Does It Support Processing Customization: Yes
- Lifting Capacity: 1-500T
- Product Material: Steel Products
- Increase Quantity: On Demand Customization
- Operation Form: Remote-controlled Operation
- New And Old Degree: Brand New
- Applicable Scope: Industrial Factory Terminal
- Lifting Height: 0-50m
- Tonnage: Customizable
- Highlight: 50m grab crane, 50m grab bucket crane, 500t grab crane

Product Description

Grab crane, commonly known as grab crane, English name: Grab crane/grabbing crane. Grab bucket crane refers to a lifting machinery equipped with grab buckets, widely used in ports, docks, station yards, mines, and other areas to load various bulk cargo, logs, minerals, coal, sand and gravel, earthworks, etc. The grab crane is an automatic material handling machine, and its grabbing and unloading actions are operated by the unloader driver without the need for auxiliary personnel, thus avoiding the heavy labor of workers, saving auxiliary work time, and greatly improving loading and unloading efficiency. The grab bucket crane can be roughly divided into bridge grab bucket crane, gantry grab bucket crane, and articulated grab bucket crane. The grab bucket crane commonly referred to by people is the articulated grab bucket crane, such as the log crane.
