

## 7KW-60KW Container STS Gantry Crane with 30V Power Supply for 17m Lifting

Our Product Introduction

for more products please visit us on [port-crane.com](http://port-crane.com)

### Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Shore container bridge crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

### Product Specification

- Production Country: China
- Electric Power: 7KW-60KW
- Brand: Lucheng Co., Ltd
- Increase Quantity: On Demand Customization
- Working Range: Yes
- Operation Form: Remote-controlled Operation
- Power Supply Voltage: 30V
- Operation Method: Wireless Remote Control
- Highlight: **container sts gantry crane, 7kw sts gantry crane, 7kw ship to shore container cranes**

## Product Description

### Product Description:

The Shore container bridge crane is manufactured by the renowned Lucheng Co., Ltd, a company with a reputation for producing high-quality industrial equipment. This ensures that the crane is built to meet the toughest standards of durability, reliability, and safety. One of the most notable features of the Shore container bridge crane is its remote-controlled operation form. This allows the crane operator to control the crane from a safe distance, ensuring maximum safety for both the operator and the load being lifted. The wireless remote control operation method also makes it easy for the operator to move around and position the crane with ease.

The Shore container bridge crane is specifically designed for workshop production loading and unloading applications. It is the perfect tool for businesses that need to move large and heavy goods around their production facilities. The crane can be used to move containers, heavy machinery, and other large and bulky items with ease.

The Shore container bridge crane is also designed to be highly efficient and easy to operate. It has a user-friendly interface that makes it easy for the operator to control the crane with precision. The crane is also designed to be easy to maintain and service, ensuring that it remains in top condition for years to come.

In conclusion, the Shore container bridge crane is a top-quality lifting equipment that is perfect for workshop production loading and unloading applications. With its remote-controlled operation, wireless remote control operation method, and Lucheng Co., Ltd manufacturing, the crane is designed to meet the toughest standards of safety, durability, and reliability. If you're looking for a crane that can handle heavy loads with ease and precision, the Shore container bridge crane is the perfect choice.

### Features:

Product Name: Shore container bridge crane

Power supply voltage: 30V

Production country: China

Brand: Lucheng Co., Ltd

Electric power: 7KW-60KW

Working range: Yes

### Technical Parameters:

Lifting height	17m
Increase quantity	On Demand Customization
Applicable scope	Workshop Production Loading And Unloading
New and old degree	Brand New
Electric power	7KW-60KW
Operation form	Remote-controlled Operation
Power supply voltage	30V
Brand	Lucheng Co., Ltd
Working range	Yes
Production country	China

### Applications:

The lifting height of the Shore container bridge crane is 17m, making it suitable for a wide range of lifting applications. It can easily lift and move heavy containers, machinery, and other equipment with ease. The crane's wireless remote control operation method allows for easy and convenient control of the crane's movements from a safe distance.

The Shore container bridge crane is perfect for use in workshops, factories, and warehouses where heavy loads need to be lifted and moved quickly and efficiently. It is also ideal for use in construction sites where heavy materials need to be lifted and transported to different locations on the site.

One of the key advantages of the Shore container bridge crane is its ability to handle both new and old containers. This makes it a versatile option for businesses that deal with a variety of container types. It can easily handle heavy loads and move them safely and efficiently to their intended destination.

In addition, the Shore container bridge crane is built to withstand harsh environments and heavy usage. It is constructed from high-quality materials and designed to meet the highest safety standards. This ensures that the crane is reliable and durable, even under the most challenging working conditions.

In summary, the Shore container bridge crane is a versatile and reliable lifting solution for a wide range of industries. Its new and old degree, lifting height, and wireless remote control operation method make it an ideal choice for workshop production loading and unloading applications. So, if you're looking for a high-quality crane that can handle heavy loads with ease, the Shore container bridge crane is an excellent choice.

### Customization:

## Support and Services:

Our Shore container bridge crane product comes with comprehensive technical support and services to ensure efficient and reliable operation. Our team of experienced engineers and technicians offer the following services:

Installation and commissioning

Maintenance and repair

Equipment upgrades and modernization

Remote monitoring and diagnostics

On-site training and operator certification

Spare parts and inventory management

We also provide customized solutions based on your specific requirements and operational needs. Our goal is to maximize the uptime and productivity of your Shore container bridge crane, and minimize any downtime or disruptions to your operations.

## Packing and Shipping:

Product Packaging:

The Shore container bridge crane product will be securely packed in a wooden crate to ensure safe transportation.

All components and parts will be carefully wrapped and protected to prevent any damage during shipping.

The crate will be clearly labeled with the product name, dimensions, weight, and handling instructions.

Shipping:

The Shore container bridge crane product will be shipped via a reputable freight company with experience in handling heavy equipment.

The customer will be provided with a tracking number to monitor the shipment's progress.

The delivery date and time will be confirmed with the customer prior to shipping.

The customer is responsible for any customs duties or fees associated with the shipment.

## FAQ:

A: The lifting capacity of the Shore container bridge crane ranges from 35 to 120 tons depending on the model.

Q: What is the maximum span of the Shore container bridge crane?

A: The maximum span of the Shore container bridge crane is 40 meters.

Q: What is the lifting height of the Shore container bridge crane?

A: The lifting height of the Shore container bridge crane can be customized to meet your specific needs, but the standard lifting height is 22 meters.

Q: What is the operating speed of the Shore container bridge crane?

A: The operating speed of the Shore container bridge crane is variable and can be adjusted to suit your specific requirements. The maximum operating speed is 60 meters per minute.

Q: What kind of safety features does the Shore container bridge crane have?

A: The Shore container bridge crane is equipped with a range of safety features, including overload protection, anti-collision devices, and emergency stop buttons. Additionally, all of our cranes are designed to meet or exceed international safety standards.
