

17m Offshore Wharf Crane With Customizable Lifting Height Wireless Sts Crane

Our Product Introduction

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Shore container bridge crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Operation Method: Wireless Remote Control
- Working Range: Yes
- Lifting Height: 17m
- Increase Quantity: On Demand Customization
- Production Country: China
- New And Old Degree: Brand New
- Operation Form: Remote-controlled Operation
- Power Supply Voltage: 30V
- Highlight: **17m sts crane, 17m wharf crane, customizable sts crane**

Product Description

Product Description:

The Shore container bridge crane is designed to work with electric power, with power capacities ranging from 7KW to 60KW. This makes it a cost-effective and eco-friendly option compared to traditional diesel-powered cranes. The crane is also highly customizable, allowing for a range of options to meet different needs and preferences.

With a lifting height of up to 17m, the Shore container bridge crane can easily move containers and other heavy loads to higher levels. This makes it ideal for use in manufacturing plants and warehouses. The crane is also highly durable and reliable, with a sturdy design that can withstand heavy loads and harsh operating environments.

The Shore container bridge crane is a top-of-the-line option for businesses in need of a reliable and efficient crane for their loading and unloading needs. With its remote-controlled operation, electric power, and customizable options, it is a versatile and cost-effective choice for a range of applications. Whether you are moving containers or other heavy loads, the Shore container bridge crane is the perfect tool for the job.

Features:

Product Name: Shore container bridge crane

Power supply voltage: 30V

Production country: China

Increase quantity: On Demand Customization

Lifting height: 17m

Operation form: Remote-controlled Operation

Technical Parameters:

Product Attribute	Value
Product Name	Shore container bridge crane
Power Supply Voltage	30V
New and Old Degree	Brand New
Working Range	Yes
Lifting Height	17m
Brand	Lucheng Co., Ltd
Applicable Scope	Workshop Production Loading And Unloading
Operation Method	Wireless Remote Control
Increase Quantity	On Demand Customization
Operation Form	Remote-controlled Operation
Electric Power	7KW-60KW

Applications:

The crane is designed to operate on electric power, with a power range of 7KW-60KW, making it an energy-efficient choice for any workshop. The remote-controlled operation form makes it easy for operators to control the crane from a safe distance, ensuring maximum safety during operations.

The shore container bridge crane is suitable for various occasions and scenarios. It is ideal for loading and unloading containers, heavy machinery, and other bulky items in a workshop setting. The crane can also be used in ports, terminals, and other transportation hubs to facilitate the movement of shipping containers and other cargo.

The crane is designed to withstand heavy loads, making it an ideal choice for heavy-duty applications. It is also easy to install and maintain, making it a cost-effective solution for many businesses. The crane's production country is China, which is known for its high-quality manufacturing standards and strict quality control measures.

In summary, the shore container bridge crane is a versatile and efficient solution for workshop production loading and unloading. Its remote-controlled operation form, energy efficiency, and high load capacity make it an ideal choice for businesses that require a reliable and efficient crane for their operations.

Customization:

Product: Shore container bridge crane

Applicable scope: Workshop Production Loading And Unloading

Lifting height: 17m

New and old degree: Brand New

Production country: China

Support and Services:

The Shore container bridge crane product comes with comprehensive technical support and services to ensure optimal performance and minimal downtime. Our team of experienced engineers and technicians are available to provide assistance with installation, commissioning, and ongoing maintenance. We offer remote support, field services, and spare parts to ensure your crane operates at peak efficiency. Our services include:

Installation and commissioning

Remote support

Field services

Spare parts

Maintenance and repairs

Training and education

Our technical support and services are designed to minimize downtime and optimize the performance of your Shore container bridge crane. Contact us for more information on how we can support your operations.

Packing and Shipping:

Product Packaging:

The Shore container bridge crane will be securely packaged in a wooden crate to prevent any damage during transit.

The crate will be labeled with the product name, dimensions, and weight for easy identification.

Inside the crate, the product will be protected with foam padding and other appropriate materials to ensure it arrives in perfect condition.

Shipping:

The Shore container bridge crane will be shipped via sea or air freight depending on the customer's preference.

All shipping documents, including the bill of lading and customs paperwork, will be provided to the customer in a timely manner.

Delivery times will vary depending on the customer's location and shipping method chosen.

FAQ:

A: The Shore container bridge crane has a maximum weight capacity of 65 tons.

Q: What are the dimensions of the Shore container bridge crane?

A: The Shore container bridge crane has a span of 9-38 meters and a lifting height of 12-30 meters.

Q: What type of power supply does the Shore container bridge crane require?

A: The Shore container bridge crane requires a 3-phase power supply with a voltage of 380V, 50Hz.

Q: What safety features does the Shore container bridge crane have?

A: The Shore container bridge crane is equipped with overload protection, emergency stop buttons, and safety limit switches.

Q: What is the warranty period for the Shore container bridge crane?

A: The warranty period for the Shore container bridge crane is 12 months from the date of installation and commissioning.
