

Customizable Wireless Remote Controlled Electric Bridge Shore Crane With 17M Lifting Height

Our Product Introduction

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Shore container bridge crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Electric Power: 7KW-60KW
- Brand: Lucheng Co., Ltd
- Lifting Height: 17m
- Production Country: China
- Increase Quantity: On Demand Customization
- Operation Method: Wireless Remote Control
- Operation Form: Remote-controlled Operation
- Working Range: Yes
- Highlight: **bridge shore crane, customizable shore crane, customizable shore gantry crane**

Product Description

Product Description:

This crane is capable of lifting containers to a height of 17m, which is perfect for stacking containers in a storage yard or loading them onto ships. It has an electric power output of 7KW-60KW, depending on the specific model you choose. This makes it powerful enough to handle even the heaviest loads.

One of the key features of the Shore container bridge crane is its durability. It is built to withstand harsh weather conditions and heavy use, ensuring that it will last for many years to come. This makes it a smart investment for any port or shipping yard that wants to ensure efficient and reliable operations.

Another benefit of the Shore container bridge crane is its ease of use. It is designed with user-friendly controls that make it easy to operate, even for those who are new to crane operation. This helps to reduce the risk of accidents and ensures that you can get the job done quickly and efficiently.

The Shore container bridge crane is also designed with safety in mind. It comes with a range of safety features, such as emergency stop buttons and overload protection, to ensure that the crane operates safely at all times. This helps to protect your workers and your equipment, and reduces the risk of downtime due to accidents or damage.

Overall, the Shore container bridge crane is an excellent choice for any port or shipping yard that needs a reliable and efficient crane for loading and unloading containers. With its high lifting height, powerful electric motor, and user-friendly controls, it is sure to meet all of your operational needs. So why wait? Invest in a Shore container bridge crane today and start enjoying the many benefits it has to offer!

Features:

Product Name: Shore container bridge crane

Increase quantity: On Demand Customization

Operation method: Wireless Remote Control

Production country: China

Operation form: Remote-controlled Operation

Applicable scope: Workshop Production Loading And Unloading

Technical Parameters:

Operation method	Wireless Remote Control
Working range	Yes
Increase quantity	On Demand Customization
Operation form	Remote-controlled Operation
Power supply voltage	30V
Brand	Lucheng Co., Ltd
Lifting height	17m
Applicable scope	Workshop Production Loading And Unloading
Electric power	7KW-60KW
New and old degree	Brand New

Applications:

The Shore container bridge crane is designed to lift and move containers, making it ideal for use in shipping yards, ports, and warehouses. With a lifting height of 17m, this crane can easily handle containers of various sizes and weights, making it an essential tool for any business that deals with containerized goods.

One of the key advantages of the Shore container bridge crane is its ability to increase quantity. This means that it can handle a large number of containers in a short amount of time, making it an efficient and cost-effective solution for businesses that need to move large volumes of goods.

Another advantage of the Shore container bridge crane is its flexibility. It can be used in a variety of different scenarios, such as loading and unloading containers from trucks, trains, and ships. It can also be used to move containers around a warehouse or production facility, making it a useful tool for businesses that need to store and transport goods in-house.

Produced in China, the Shore container bridge crane is known for its durability and reliability. It is designed to withstand heavy use and is built to last, making it a wise investment for any business that needs a reliable lifting device.

In summary, the Shore container bridge crane is a versatile and efficient lifting device that can be customized on demand to meet specific needs and requirements. It is ideal for use in workshop production loading and unloading, and is perfect for businesses that deal with containerized goods. Produced by Lucheng Co., Ltd. in China, this crane is built to last and is a wise investment for any business that needs a reliable lifting device.
