

Gantry Crane Electric Hoist With Remote Control And Adjustable Capacity

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: China
- Brand Name: Lucheng Co., Ltd
- Model Number: Electric hoist
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Applicable Scope: Workshop Production Loading And Unloading
- Does It Support Processing Customization: Yes
- Operation Form: Air Operation/remote Operation
- Tonnage: Customizable
- Type: Electric Hoist
- Product Material: Steel Products
- Lifting Height: 17m
- Electric Power: 7KW-60KW
- Highlight: adjustable gantry crane electric hoist,
adjustable electric hoist with remote control,
17m gantry crane electric hoist

Product Description

Product Description:

Our Electric hoist is available in a variety of tonnage options, making it customizable to your specific needs. This ensures that you can lift and move heavy loads with ease, regardless of their weight. Our Electric hoist is also available in a range of colours, allowing you to choose the one that best matches your workspace.

The lifting height of our Electric hoist is an impressive 17m, making it perfect for lifting and moving heavy loads to high places. This makes it a great solution for any workspace where heavy lifting is required, from workshops and factories to warehouses and loading docks.

Our Electric hoist is suitable for a wide range of applications, including workshop production, loading and unloading, and many more. Its robust construction and powerful lifting capabilities make it the perfect solution for any workspace that requires heavy lifting.

In conclusion, if you are looking for a reliable and powerful lifting solution, our Electric hoist is the perfect choice. With customizable tonnage options, a range of colours to choose from, and an impressive lifting height of 17m, our Electric hoist is the perfect solution for any workspace that requires heavy lifting. So why wait? Order your Electric hoist today and experience the power and reliability of our industry-leading lifting solution!

Features:

Product Name: Electric hoist

Electric Power: 7KW-60KW

Increase Quantity: On Demand Customization

Lifting Height: 17m

Tonnage: Customizable

Operation Form: Air Operation/Remote Operation

Technical Parameters:

Product Attribute	Electric Hoist
Type	Electric Hoist
New and Old Degree	Brand New
Color	Customizable
Operation Form	Air Operation/Remote Operation
Applicable Scope	Workshop Production Loading And Unloading
Electric Power	7KW-60KW
Production Country	China
Increase Quantity	On Demand Customization
Lifting Height	17m
Processing Customization Support	Yes

Applications:

The Electric hoist is available in different models that have a power range of 7KW-60KW, making it suitable for lifting objects of varying weights. The tonnage of the electric hoist is customizable, which means that it can be tailored to meet the specific needs of customers. The Electric hoist comes with two operation forms: air operation and remote operation. This feature makes it easy to operate the electric hoist and ensures that it can be used in different scenarios.

Some of the application occasions and scenarios where the Electric hoist can be used include:

Construction sites: The Electric hoist can be used to lift heavy materials, such as steel beams, concrete blocks, and construction equipment. It is also useful in moving heavy materials from one location to another.

Factories: The Electric hoist is useful in a factory setting where heavy machinery needs to be lifted and moved around. It can also be used for loading and unloading goods from trucks.

Warehouses: The Electric hoist is an essential tool in a warehouse where heavy goods need to be lifted and moved around. It can also be used for loading and unloading goods from trucks.

Maintenance: The Electric hoist is useful in maintenance tasks where heavy machinery needs to be lifted for repair or maintenance work. In conclusion, the Electric hoist by Lucheng Co., Ltd is a versatile product that can be used in a variety of scenarios. With its customizable tonnage, different power ranges, and two operation forms, it is an ideal product for lifting heavy objects. Whether it is in construction sites, factories, warehouses, or maintenance tasks, the Electric hoist is an essential tool that can help make work easier and more efficient.

Customization:

Our Electric hoist, manufactured by Lucheng Co., Ltd, is a top-of-the-line product that can be customized to meet your specific needs. This Electric hoist has a model number of Electric hoist and is made in China. We offer processing customization for this product. You can

choose the tonnage that best fits your requirements, and we offer electric power options ranging from 7KW to 60KW. The color of the Electric hoist is also customizable to suit your preferences. Additionally, our Electric hoist is brand new and has not been used before.

Support and Services:

The electric hoist product comes with technical support and services to ensure its proper functioning and longevity. Our team of experts is available to provide product installation assistance, troubleshooting, repair and maintenance services. We also offer training sessions to ensure safe and efficient operation of the hoist. Our technical support and services aim to minimize downtime and maximize the productivity of our customers' businesses.

Packing and Shipping:

Product Packaging:

Electric hoist

Remote control

Power cord

User manual

Shipping:

Shipping method: Standard

Estimated delivery time: 5-7 business days

Shipping cost: Free

Tracking information will be provided once the item is shipped.
