

Advanced Remote Controlled Grab Bucket Eot Crane Electric Steel Grabbing Cranes With Diverse Quantities

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Grab crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Product Material: Steel Products
- Increase Quantity: On Demand Customization
- Types Of: Grabbing Crane
- Span Length: On Request
- Lifting Height: 0-50m
- Operation Form: Remote-controlled Operation
- Brand: Lucheng Co., Ltd
- New And Old Degree: Brand New
- Highlight: 50m grabbing cranes,
50m grab bucket eot crane

Product Description

Product Description:

The Grabbing Crane is designed to cater to your lifting needs with its impressive Lifting Capacity of 1-500T. This means that it can easily handle any load you throw its way. The crane is perfect for both small-scale and large-scale projects, making it a versatile option for all your lifting needs.

One of the best things about our Grabbing Crane is its Remote-controlled Operation form. This feature allows you to control the crane from a distance, ensuring your safety while operating the crane. The remote-controlled operation also makes it easier to maneuver the crane in tight spaces and hard-to-reach areas, making it perfect for use in construction sites with limited space.

Our Grabbing Crane is perfect for lifting loads to heights of up to 50m. This lifting height makes it perfect for use in high-rise buildings, where loads need to be lifted to great heights. With its impressive lifting height, this crane is the perfect choice for all your construction needs.

Overall, the Grabbing Crane is a must-have for any construction site that requires heavy lifting equipment. Its impressive Boom Length of 30 meters, Lifting Capacity of 1-500T, Remote-controlled Operation form, and lifting height of up to 50m, make it the perfect choice for all your lifting needs. Don't delay, invest in our Grabbing Crane today and take your construction projects to the next level.

Features:

Product Name: Grabbing crane

Boom Length: 30 Meters

Application: Warehouse Workshop Hoisting

Brand: Lucheng Co., Ltd

Increase quantity: On Demand Customization

Processing customization: Yes

Technical Parameters:

Product Material:	Steel Products
Applicable Scope:	Industrial Factory Terminal
Lifting Capacity:	1-500T
Application:	Warehouse Workshop Hoisting
Boom Length:	30 Meters
Brand:	Lucheng Co., Ltd
Types of:	Grabbing Crane
Trolley Traveling Speed:	50 M/min
Increase Quantity:	On Demand Customization
Lifting Height:	0-50m

Applications:

The grabbing crane supports processing customization and can be tailored to meet the specific needs of customers. The customization options include span length, lifting capacity, and other specific requirements that customers may have. The increased quantity of the grabbing crane depends on the demands of customers and can be customized accordingly.

One of the primary applications of the grabbing crane is in the warehouse industry. Warehouses deal with heavy loads, and the grabbing crane comes in handy to lift and move these loads. The grabbing crane can also be customized to fit the specific needs of the warehouse. It can be used to move heavy items from one location to another, making it easier to organize the warehouse space.

The grabbing crane is also ideal for use in the workshop industry. Workshops require equipment that can handle heavy loads, and the grabbing crane is an ideal choice. It can be used to lift and move equipment around the workshop, making it easier for workers to handle the equipment. The grabbing crane can also be used to move heavy items from the workshop to other locations.

The hoisting industry is another sector that can benefit from the grabbing crane. The grabbing crane can be used to lift and move heavy loads in the hoisting industry. In this industry, the grabbing crane is used to lift and move equipment to different locations, making it an essential tool in the industry.

In conclusion, the grabbing crane is a versatile and efficient lifting and handling equipment that can be customized to meet specific customer needs. Its lifting capacity makes it an ideal choice for handling heavy-duty equipment in various industries such as construction, steel mills, mining, and shipping. The grabbing crane is suitable for use in warehouse, workshop, and hoisting industries.

Customization:

Our Grabbing Crane is a top-of-the-line product that can be customized to meet your specific needs. With our product customization services, you can choose the operation form that suits your requirements. Our Grabbing Crane is remote-controlled, allowing for safe and efficient operation. The trolley traveling speed is a fast 50 M/min, ensuring quick and easy movement of your materials.

Our Grabbing Crane is manufactured by Lucheng Co., Ltd, a well-known and respected brand in the industry. We offer customized span

lengths based on your specific needs. No matter what your requirements are, our Grabbing Crane can be tailored to meet them. Choose our Grabbing Crane for reliable and efficient performance. Contact us today to learn more about our product customization services.
