

500T Capacity 50m Lifting Height Grab Crane Manufacturer Grabbing Crane Equipment

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Grab crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- New And Old Degree: Brand New
- Production Country: China
- Increase Quantity: On Demand Customization
- Types Of: Grabbing Crane
- Product Material: Steel Products
- Lifting Capacity: 1-500T
- Lifting Height: 0-50m
- Does It Support Processing Customization: Yes
- Highlight: 500t grab bucket crane,
500t grab crane manufacturer,
50m grab bucket crane

Product Description

Product Description:

One of the best features of the Grabbing crane is its ability to be customized according to the needs of the user. The increase quantity option allows for on-demand customization, ensuring that the product can meet the specific requirements of each customer. Additionally, the Grabbing crane supports processing customization, meaning that it can be tailored to the unique needs of a particular business or industry. This makes the Grabbing crane a versatile and adaptable tool that can be used in a wide range of applications.

The Grabbing crane is also designed for remote-controlled operation, which enhances safety and convenience. The operator can control the crane from a distance, minimizing the risk of accidents and making it easier to move heavy loads. This feature also allows for greater precision and control, making it easier to position the grabber and release loads in a controlled manner.

Overall, the Grabbing crane is a powerful and reliable tool for lifting and transporting heavy loads. With its customizable features, remote-controlled operation, and lifting capacity of 1-500T, it is suitable for a variety of applications. Whether you need to move heavy materials on a construction site or transport goods in a shipping yard, the Grabbing crane is a versatile and effective solution.

Features:

Product Name: Grab crane

Lifting height: 0-50m

Type: Grabbing Crane

Brand: Lucheng Co., Ltd

Application: Warehouse Workshop Hoisting

Product material: Steel Products

Technical Parameters:

Lifting capacity	1-500T
Lifting height	0-50m
New and old degree	Brand New
Increase quantity	On Demand Customization
Types of	Grabbing crane
Operation form	Remote-controlled Operation
Boom Length	30 Meters
Span Length	On Request
Trolley Traveling Speed	50 M/min
Processing customization	Yes

Applications:

One of the key benefits of the Grabbing crane is its ability to grab and lift materials of various sizes and shapes. This makes it an ideal choice for handling bulk materials such as coal, sand, and gravel. Moreover, it is also highly effective in handling containers, which makes it a popular choice in ports and shipping terminals.

In addition to its high performance, the Grabbing crane is also known for its durability and reliability. This crane is produced in China, which is known for its high-quality manufacturing standards. As a result, the Grabbing crane is built to last and can withstand the harsh conditions of industrial environments.

The Grabbing crane is suitable for a wide range of application occasions and scenarios. For example, it can be used in manufacturing plants to move raw materials and finished products. It can also be used in construction sites to lift and move heavy equipment and materials. Additionally, it can be used in ports and shipping terminals to load and unload cargo from ships and containers.

Overall, the Grabbing crane is a versatile and reliable piece of equipment that can improve the efficiency and productivity of any industrial operation. Its ability to grab and lift materials of various sizes and shapes makes it an ideal choice for handling bulk materials, containers, and heavy equipment. With its high trolley traveling speed and durable construction, the Grabbing crane is a valuable asset for any industrial factory terminal.

Customization:

Lifting Height: 0-50m

Operation Form: Remote-controlled Operation

Applicable Scope: Industrial Factory Terminal

Boom Length: 30 Meters

Processing Customization: Yes

Support and Services:

The Grab crane is a heavy-duty crane used for lifting and moving large and heavy loads. It is equipped with a grab bucket that can easily pick up and transport loose materials such as sand, gravel, and coal.

Our product technical support team is available to assist with any issues or questions regarding the operation and maintenance of the Grab crane. We provide comprehensive training to ensure safe and efficient use of the crane.

In addition, we offer a range of services including installation, commissioning, and repair services to ensure that your Grab crane is operating at its best. Our team of experienced technicians and engineers are available to provide on-site support as needed.

At Grab crane, we are committed to providing our customers with the highest level of technical support and service to ensure optimal performance and maximum uptime of your crane.

Packing and Shipping:

Product Packaging:

Grab crane

Instruction manual

Shipping:

Ships within 2 business days

Free standard shipping

Expedited shipping options available for an additional fee

Shipping available to US and select international locations

FAQ:

A: The maximum weight capacity of the Grab crane is 10 tons.

Q: What is the maximum reach of the Grab crane?

A: The maximum reach of the Grab crane is 25 meters.

Q: Can the Grab crane rotate 360 degrees?

A: Yes, the Grab crane can rotate a full 360 degrees.

Q: Is the Grab crane suitable for use in harsh weather conditions?

A: Yes, the Grab crane is designed to operate in harsh weather conditions.

Q: Does the Grab crane come with a remote control?

A: Yes, the Grab crane comes with a remote control for easy operation.
