

50M/Min Customized Steel Grabbing Crane Machine For Industrial Terminal Warehouse Workshop

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Grab crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Applicable Scope: Industrial Factory Terminal
- Application: Warehouse Workshop Hoisting
- Trolley Traveling Speed: 50 M/min
- Production Country: China
- New And Old Degree: Brand New
- Brand: Lucheng Co., Ltd
- Operation Form: Remote-controlled Operation
- Span Length: On Request
- Highlight: 50m grab crane, 50m/min grab crane, 50m grab bucket crane

Product Description

Product Description:

The Grabbing Crane is designed to efficiently grab and lift various materials, including coal, ore, sand, and other bulk goods. It is versatile and can handle a wide range of materials, making it an ideal choice for a variety of industrial applications.

This crane is easy to operate and maintain, ensuring high productivity and minimal downtime. It is equipped with advanced safety features to ensure safe and reliable operation, even in harsh operating conditions.

The Grabbing Crane is available in different sizes and configurations to meet various industrial needs. It is suitable for use in ports, mines, steel mills, power plants, and other industrial facilities where bulk materials need to be handled efficiently and safely.

In summary, the Grabbing Crane is a reliable, efficient, and versatile crane that is built to last. Its customizable features make it an ideal choice for industrial factories that handle bulk materials. Get your brand new Grabbing Crane today and experience its exceptional performance and reliability.

Features:

Product Name: Grabbing crane

Brand: Lucheng Co., Ltd

Trolley Traveling Speed: 50 M/min

Processing Customization: Yes

Production Country: China

Lifting Height: 0-50m

Technical Parameters:

Lifting height	0-50m
Type	Grabbing crane
Lifting capacity	1-500T
Span Length	On Request
Brand	Lucheng Co., Ltd
New and old degree	Brand New
Production country	China
Application	Warehouse Workshop Hoisting
Boom Length	30 Meters
Operation form	Remote-controlled Operation

Applications:

Grabbing crane is ideal for scenarios where heavy lifting is required. It can be used to lift and move heavy loads of materials in a warehouse or workshop setting. This crane is particularly useful in the manufacturing industry, where large and heavy materials need to be moved from one area to another.

Another application of the grabbing crane is in the construction industry. It can be used to lift heavy loads of materials at construction sites. The crane can also be used to transport materials from one location to another, making it ideal for use in road construction projects. Grabbing crane can be used in a variety of different scenarios. It can be used to move heavy machinery, transport large containers, and even lift building materials such as bricks and concrete slabs. With its customization options, the crane can be tailored to fit the specific needs of any application, making it a versatile and useful tool for any industrial setting.

In summary, the grabbing crane is a brand new product that is perfect for warehouse and workshop hoisting applications. It has a boom length of 30 meters and a trolley traveling speed of 50 M/min. Its ability to support processing customization makes it ideal for any specific application requirement. The crane can be used in a variety of different scenarios, making it a versatile and useful tool for any industrial setting.

Support and Services:

Our Grab crane product comes with comprehensive technical support and services to ensure optimal performance and reliability.

Our technical support team is available to assist with any product-related queries, including installation, troubleshooting, and maintenance. We offer on-site support to address any issues that cannot be resolved remotely.

We also provide training services to ensure that your operators are proficient in the use of the Grab crane product. Our training programs cover all aspects of crane operation and safety.

In addition, we offer customization services to meet the specific needs of your application. Our team of engineers will work with you to design and develop a solution that fits your requirements. With our commitment to customer satisfaction, you can trust that our technical support and services will exceed your expectations.

Packing and Shipping:

Product Packaging:

1 x Grab crane
1 x Remote control
1 x User manual
2 x Rechargeable batteries
1 x Charging cable

Shipping Information:

Shipping method: Standard

Estimated delivery time: 5-7 business days

Shipping cost: Free

Tracking information: Available

FAQ:

A: The Grab crane has a maximum weight capacity of 10 tons.

Q: What is the maximum outreach of the Grab crane?

A: The maximum outreach of the Grab crane is 25 meters.

Q: What is the lifting speed of the Grab crane?

A: The lifting speed of the Grab crane is 20 meters per minute.

Q: What is the power source for the Grab crane?

A: The Grab crane is powered by electricity.

Q: Does the Grab crane come with a remote control?

A: Yes, the Grab crane comes with a remote control for easy operation.
