

Industrial Steel Grab Crane With 0-50m Lifting Height And 1-500T Capacity

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Grab crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Lifting Height: 0-50m
- Applicable Scope: Industrial Factory Terminal
- New And Old Degree: Brand New
- Application: Warehouse Workshop Hoisting
- Lifting Capacity: 1-500T
- Increase Quantity: On Demand Customization
- Does It Support Processing Customization: Yes
- Boom Length: 30 Meters
- Highlight: **500T grab crane for sale, Industrial Steel Grab crane, Grab crane 500T**

Product Description

Product Description:

Equipped with a remote-controlled operation, the Grabbing crane allows you to control its movements from a safe distance, ensuring maximum safety for operators. With a boom length of 30 meters, you can easily reach and grab items from a distance, making it a versatile machine that can handle a range of tasks.

The Grabbing crane is designed to lift items up to a height of 50 meters, making it perfect for use in large buildings and structures. Whether you need to move heavy machinery or grab materials from high up, this machine can handle it all with ease.

Made from the finest quality steel products, the Grabbing crane is built to withstand even the toughest of conditions. It is corrosion-resistant, ensuring that it can last for years without any signs of wear and tear. The machine is also designed for easy maintenance, making it a cost-effective option for any business.

Overall, the Grabbing crane is a must-have for any industrial factory terminal. Its remote-controlled operation, long boom length, and high lifting height make it a versatile machine that can handle a range of tasks. Made from the finest steel products, it is guaranteed to last for years and provide exceptional value to your business. So why wait? Invest in the Grabbing crane today and take your lifting and grabbing tasks to the next level!

Features:

Product Name: Grabbing crane

Boom Length: 30 Meters

Lifting height: 0-50m

Lifting capacity: 1-500T

Supports processing customization: Yes

Product material: Steel Products

Technical Parameters:

Operation Form	Remote-controlled Operation
Brand	Lucheng Co., Ltd
New and Old Degree	Brand New
Span Length	On Request
Processing Customization Support	Yes
Production Country	China
Lifting Height	0-50m
Product Material	Steel Products
Application	Warehouse Workshop Hoisting
Increase Quantity	On Demand Customization

Applications:

The grabbing crane is ideal for use in shipyards, ports, construction sites, and other industrial settings. It can be used for lifting heavy equipment, containers, and other materials. The lifting height of this crane ranges from 0 to 50 meters, making it suitable for multi-story buildings and other high-rise structures.

One of the key benefits of the grabbing crane is that it supports processing customization. This means that it can be tailored to meet the specific needs of a particular industry or application. For example, it can be fitted with specialized attachments for handling different types of materials, or it can be modified to meet the requirements of a particular site.

The grabbing crane is an excellent choice for a wide range of scenarios and occasions. It is particularly well-suited for situations where heavy loads need to be moved quickly and efficiently. Whether you are working in a busy port, a construction site, or a manufacturing facility, the grabbing crane can help you get the job done.

Customization:
