

Customizable Steel Industrial Metallurgical Crane With 9-30M Effective Lifting Height

Our Product Introduction

for more products please visit us on port-crane.com

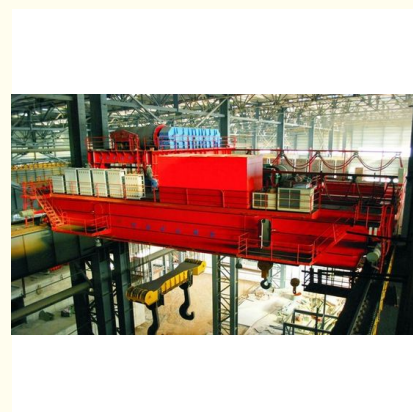

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Metallurgical crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Main Material: Q235B/Q345B Steel
- Does It Support Processing Customization: Yes
- Brand: Lucheng Co., Ltd
- Tonnage: Customizable
- Lifting Height: 0-50m
- New And Old Degree: Brand New
- Applicable Scope: Industrial Factory Terminal
- Effective Lifting Height: 9-30m
- Highlight: industrial metallurgical crane,
customizable metallurgical crane,
customizable factory overhead crane

Product Description

Product Description:

Our Metallurgical crane is manufactured in China, ensuring high quality construction and reliable performance. Whether you need to lift heavy machinery or transport raw materials, this crane is up to the task, and can be customized to meet your specific requirements. At Lucheng Co., Ltd, we understand that every industrial factory terminal is different, which is why we offer on-demand customization for our Metallurgical crane. This means that you can select the features that best suit your needs, from the lifting capacity to the crane's overall design.

Our Metallurgical crane is designed to be easy to use and maintain, ensuring that your team can operate it safely and efficiently. We use top-quality materials and advanced manufacturing techniques to ensure that every crane we produce meets our high standards for quality and performance.

When you choose Lucheng Co., Ltd's Metallurgical crane, you're choosing a proven solution that can handle a range of lifting tasks in your industrial factory terminal. With its robust construction, customizable design, and reliable performance, this crane is the perfect addition to any facility that requires heavy lifting capabilities.

Features:

Product Name: Metallurgical crane

Production country: China

New and old degree: Brand New

Does it support processing customization: Yes

Lifting height: 0-50m

Main Material: Q235B/Q345B Steel

Technical Parameters:

Main Material:	Q235B/Q345B Steel
Increase quantity:	On Demand Customization
Type:	Metallurgical Crane
Effective Lifting Height:	9-30m
Operation form:	Remote-controlled Operation
New and old degree:	Brand New
Applicable scope:	Industrial Factory Terminal
Power Supply:	3-phase AC, 50Hz, 380V
Product material:	Steel Products
Lifting capacity:	1-500T

Applications:

The Metallurgical crane is a versatile product that can be customized according to the needs of the customer. The tonnage of the crane can be customized to meet the lifting requirements of different industries. The lifting height of the crane can also be adjusted to meet the specific needs of the customer. This makes the Metallurgical crane suitable for a wide range of applications.

The Metallurgical crane is ideal for use in steel mills, foundries, and other metallurgical plants. It can be used to lift and move heavy loads of raw materials, finished products, and equipment. The crane is designed to operate in harsh environments and can withstand high temperatures, dust, and other contaminants commonly found in metallurgical plants.

Construction companies can also benefit from the use of the Metallurgical crane. It can be used to lift and move heavy construction materials such as steel beams, concrete blocks, and prefabricated panels. The crane can also be used to lift and move heavy equipment such as excavators and bulldozers.

The mining industry can also benefit from the use of the Metallurgical crane. It can be used to lift and move heavy loads of raw materials such as ores and minerals. The crane can also be used to transport heavy equipment such as drilling rigs and excavators.

In summary, the Metallurgical crane is a versatile product that can be customized to meet the needs of various industries. It is suitable for use in steel mills, foundries, construction sites, and mining operations. The product is made of high-quality steel products and is designed to operate in harsh environments. Lucheng Co., Ltd is committed to providing high-quality products and excellent customer service, making the Metallurgical crane an ideal choice for any industry.

Customization:

Looking for customized options for your Metallurgical crane? Look no further than Lucheng Co., Ltd! Our Metallurgical crane, made with Q235B/Q345B Steel, is a sturdy and reliable choice for any industrial application. Our customization services allow you to tailor the crane to your specific needs, including remote-controlled operation, lifting heights of up to 50m, and power supply options of 3-phase AC, 50Hz, 380V. Our Metallurgical crane is proudly made in Shandong Province, China, and is constructed with high-quality steel products for maximum durability. Trust Lucheng Co., Ltd for all of your Metallurgical crane needs!

Support and Services:

Our Metallurgical crane product is designed to withstand the harsh environments of steel mills and other metal processing facilities. Our team of technical experts is available to provide support and services to ensure the proper functioning and maintenance of your crane. We offer a range of technical support services including:

Installation assistance

On-site training for operators and maintenance personnel

Remote diagnostics and troubleshooting

Emergency repair services

Preventative maintenance programs

Our goal is to minimize downtime and maximize the efficiency of your Metallurgical crane. Contact us to learn more about our technical support and services.

Packing and Shipping:

Our Metallurgical crane product is carefully packaged to ensure safe and secure delivery to our customers. Each component of the crane is securely wrapped and packed in a sturdy wooden crate to prevent damage during shipping.

We work with reputable shipping companies to ensure timely and efficient delivery of our products. The shipping charges are calculated based on the distance and weight of the package. We provide tracking information to our customers so they can monitor the progress of their shipment.

FAQ:

Q: What is the brand name of the metallurgical crane?

A: The brand name of the metallurgical crane is Lucheng Co., Ltd.

Q: What is the model number of the metallurgical crane?

A: The model number of the metallurgical crane is Metallurgical crane.

Q: Where is the metallurgical crane manufactured?

A: The metallurgical crane is manufactured in Shandong Province, China.

Q: What is the maximum weight capacity of the metallurgical crane?

A: The maximum weight capacity of the metallurgical crane is dependent on the specific model. Please refer to the product specifications

for more information.

Q: What type of materials can the metallurgical crane handle?

A: The metallurgical crane is designed to handle various types of metals such as steel, iron, and aluminum.
