

Lucheng Steel 1-500T Metallurgical Crane with Customizable Lifting Height

Our Product Introduction

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Metallurgical crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Lifting Capacity: 1-500T
- Power Supply: 3-phase AC, 50Hz, 380V
- Brand: Lucheng Co., Ltd
- Product Material: Steel Products
- Production Country: China
- Effective Lifting Height: 9-30m
- Tonnage: Customizable
- Does It Support Processing Customization: Yes
- Highlight: 500t metallurgical crane,
steel metallurgical crane,
steel factory overhead crane

Product Description

Product Description:

The Metallurgical crane supports processing customization, which means it can be tailored to meet specific customer requirements. This makes it a versatile and adaptable solution for various material handling applications in the metallurgical industry. The effective lifting height of the Metallurgical crane ranges from 9-30 meters, making it suitable for handling materials at different levels. The crane is equipped with advanced lifting mechanisms, including hoists and winches, to ensure efficient and safe lifting operations. The product material of the Metallurgical crane is steel products, which are known for their high strength and durability. The crane is designed to withstand heavy loads and harsh operating conditions, making it an ideal solution for the metallurgical industry. The lifting capacity of the Metallurgical crane ranges from 1-500T, which makes it capable of handling a wide range of materials with different weights and sizes. The crane is also designed with safety features such as overload protection and emergency stop buttons to ensure safe and reliable operation. In summary, the Metallurgical crane is a heavy-duty crane designed for material handling in the metallurgical industry. It is made of high-quality Q235B/Q345B steel, supports processing customization, has an effective lifting height of 9-30 meters, is made of steel products, and has a lifting capacity of 1-500T. Its high strength, durability, and safety features make it an ideal solution for heavy-duty material handling operations.

Features:

Product Name: Metallurgical crane
Lifting height: 0-50m
Production country: China
Tonnage: Customizable
Brand: Lucheng Co., Ltd
New and old degree: Brand New

Technical Parameters:

New and old degree	Brand New
Increase quantity	On Demand Customization
Type	Metallurgical Crane
Main Material	Q235B/Q345B Steel
Lifting capacity	1-500T
Brand	Lucheng Co., Ltd
Processing customization support	Yes
Operation form	Remote-controlled Operation
Tonnage	Customizable
Lifting height	0-50m

Applications:

Metallurgical crane is a versatile product that can be customized for processing as per your requirements. Lucheng Co., Ltd offers on-demand customization, which means you can increase the quantity of the crane as per your specific needs. This product is perfect for lifting heavy loads, and its lifting height can go up to 50m, making it a perfect fit for several industrial applications. Metallurgical crane is perfect for applications like lifting molten metal, steel pipes, and other heavy materials in metallurgical plants. It can also be used in foundries, smelters, and other industrial scenarios where heavy loads need to be lifted. The crane is designed to provide excellent stability and safety, and it is easy to operate, making it an ideal choice for various industrial applications. Metallurgical crane by Lucheng Co., Ltd is a reliable and efficient product that can provide excellent lifting solutions for different industrial scenarios. Whether you need to lift heavy materials in foundries or smelters, this crane can offer you excellent performance and reliability. With its customizable processing feature, you can increase the quantity of the crane as per your specific needs, making it a perfect fit for your industrial lifting requirements.

Customization:

Our Metallurgical crane, manufactured by Lucheng Co., Ltd in Shandong Province, China, is a highly customizable product that can be tailored to meet your specific needs. With an effective lifting height range of 9-30m, this crane can be designed to increase quantity based on your demands. Our Metallurgical crane is constructed from Q235B/Q345B steel, ensuring durability and reliability. It is powered by 3-phase AC, 50Hz, 380V power supply, providing the necessary energy to operate the crane at its full capacity.

Support and Services:

Our Metallurgical crane product comes with comprehensive technical support and services to ensure that our customers receive the maximum value from their investment. Our team of highly skilled and experienced technicians and engineers are available to provide prompt and efficient support services whenever required.

Our technical support services include:

24/7 technical support hotline

On-site technical support services

Remote diagnostic and troubleshooting services

Spare parts management and delivery

Regular maintenance and service contracts

In addition to technical support, we also offer training services to help our customers operate and maintain their Metallurgical crane product effectively. Our training services include:

Operator training

Maintenance training

Technical training

Our goal is to provide our customers with the highest level of support and service to ensure the reliable and efficient operation of their Metallurgical crane product for many years to come.

Packing and Shipping:

Product Packaging:

The Metallurgical crane will be securely packaged in a wooden crate to prevent damage during transportation.

All parts and components will be carefully wrapped and placed inside the crate.

The crate will be labeled with the product name, dimensions, and handling instructions for the carrier.

Product Shipping:

The Metallurgical crane will be shipped via a reputable carrier to ensure timely and safe delivery.

The shipping cost will be included in the purchase price of the product.

The carrier will provide a tracking number for the customer to track the delivery status of the product.

The customer is responsible for inspecting the product upon delivery and reporting any damage to the carrier and the seller.

FAQ:

A: The brand name of the Metallurgical crane is Lucheng Co., Ltd.

2. What is the model number of the Metallurgical crane?

A: The model number of the Metallurgical crane is Metallurgical crane.

3. Where is the Metallurgical crane manufactured?

A: The Metallurgical crane is manufactured in Shandong Province, China.

4. What is the maximum weight capacity of the Metallurgical crane?

A: The maximum weight capacity of the Metallurgical crane varies based on the specific model and configuration. Please contact us for more information.

5. Does the Metallurgical crane come with a warranty?

A: Yes, the Metallurgical crane comes with a warranty. Please refer to the warranty information provided with the product for more details.
