

Q235B / Q345B Steel Industrial Metallurgical Crane / Factory Terminal Crane 50Hz 380V

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Metallurgical crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Production Country: China
- Applicable Scope: Industrial Factory Terminal
- Tonnage: Customizable
- Product Material: Steel Products
- Main Material: Q235B/Q345B Steel
- Lifting Capacity: 1-500T
- Operation Form: Remote-controlled Operation
- Increase Quantity: On Demand Customization
- Highlight: **Factory Terminal Crane,
Industrial Metallurgical crane,
380V Metallurgical crane**

Product Description

Product Description:

Manufactured in China, this Metallurgical crane is made to the highest standards of quality and durability. It is designed to withstand the harsh conditions of the metallurgical environment, ensuring reliable and consistent performance over the long term.

The Metallurgical crane has an effective lifting height of 9-30m, making it ideal for a wide range of lifting applications. It can be used to lift and move heavy loads, such as steel coils, ingots, and other materials used in the production of steel and other metals.

One of the key features of the Metallurgical crane is its customizable tonnage. This means that the crane can be tailored to meet the specific needs of each customer, ensuring that it can handle the weights and loads required for their particular operation. Whether you need a crane with a lower tonnage for lighter loads or a higher tonnage for heavier loads, this crane can be customized to meet your needs.

In addition to its customizable tonnage, the Metallurgical crane also has a lifting capacity of 1-500T, making it one of the most powerful cranes in the industry. This lifting capacity allows it to handle even the heaviest loads with ease, making it an essential tool for any metallurgical operation.

In summary, the Metallurgical crane is a powerful and versatile lifting equipment designed for use in the metallurgical industry. With its customizable tonnage, lifting height of 0-50m, lifting capacity of 1-500T, and effective lifting height of 9-30m, it is ideal for a wide range of lifting applications. Manufactured in China to the highest standards of quality and durability, it is built to withstand the harsh conditions of the metallurgical environment and provide reliable and consistent performance over the long term.

Features:

Product Name: Metallurgical crane

tonnage: Customizable

New and old degree: Brand New

Production country: China

Power Supply: 3-phase AC, 50Hz, 380V

Increase quantity: On Demand Customization

Technical Parameters:

Product Attribute	Technical Parameter
Product Name	Metallurgical crane
Processing Customization	Yes
Power Supply	3-phase AC, 50Hz, 380V
New and Old Degree	Brand New
Lifting Height	0-50m
Main Material	Q235B/Q345B Steel
Increase Quantity	On Demand Customization
Applicable Scope	Industrial Factory Terminal
Effective Lifting Height	9-30m
Product Material	Steel Products

Applications:

The Metallurgical crane from Lucheng Co., Ltd is a top-of-the-line product that is ideal for a variety of heavy-duty lifting applications. With a lifting capacity of 1-500T, this crane is perfect for use in metallurgical plants, steel mills, and other heavy industrial settings where large loads need to be transported quickly and efficiently.

One of the key benefits of the Metallurgical crane is that it is highly customizable. This means that it can be tailored to meet the unique needs of each customer, whether they require specific lifting capacities, boom lengths, or other features. This makes it an ideal choice for businesses of all sizes, from small workshops to large industrial facilities.

Another advantage of the Metallurgical crane is its durability and reliability. Made from high-quality steel products, this crane is built to withstand the toughest working conditions and provide years of trouble-free operation. Whether you are lifting heavy machinery, raw materials, or finished products, this crane is up to the task.

The Metallurgical crane from Lucheng Co., Ltd is suitable for a wide range of applications and scenarios. It can be used for loading and unloading materials, moving heavy machinery, and transporting goods from one location to another. It is ideal for use in metallurgical plants, steel mills, and other heavy industrial settings where large loads need to be lifted and moved quickly and efficiently.

Overall, if you are looking for a high-quality, customizable, and reliable Metallurgical crane, look no further than Lucheng Co., Ltd. With its brand new state, this crane is ready to tackle any heavy-duty lifting task you can throw at it.

Customization:

Product Customization Services for the Metallurgical crane:

Brand Name: Lucheng Co., Ltd

Model Number: Metallurgical crane

Place of Origin: Shandong Province, China

Applicable scope: Industrial Factory Terminal

Product material: Steel Products

Tonnage: Customizable

New and old degree: Brand New

Does it support processing customization: Yes

Choose the Metallurgical crane from Lucheng Co., Ltd for your industrial factory terminal needs. With customizable tonnage and the option for processing customization, this steel product is a reliable choice for your operations.

Support and Services:

Our metallurgical crane product technical support and services include:

- Expert installation and commissioning
- On-site training for operators and maintenance personnel
- Regular maintenance and inspection services
- 24/7 technical support hotline
- Spare parts and component replacement
- Upgrades and modernization services to improve performance and extend the lifespan of the equipment

Packing and Shipping:

Product Packaging:

The metallurgical crane will be securely packaged in a wooden crate to protect it during transportation.

The crate will be labeled with the necessary handling instructions and product information.

Shipping:

The metallurgical crane will be shipped via freight carrier.

Shipping fees will be calculated based on the destination and weight of the product.

The customer will be informed of the estimated shipping time and provided with a tracking number once the product has been shipped.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this product is Lucheng Co., Ltd.

Q: What is the model number of this crane?

A: The model number of this crane is Metallurgical crane.

Q: Where is this crane manufactured?

A: This crane is manufactured in Shandong Province, China.

Q: What are the main features of this crane?

A: The Metallurgical crane is designed for heavy-duty lifting and has a high load capacity. It is equipped with advanced safety features, such as overload protection and emergency stop buttons. It also has a durable and corrosion-resistant structure for use in harsh environments.

Q: What industries is this crane suitable for?

A: The Metallurgical crane is ideal for industries such as steel mills, foundries, and other metal processing facilities where heavy lifting is required.
