

## 500T Capacity Metallurgical Crane With Remote Control 3 Phase AC

### Our Product Introduction

for more products please visit us on [port-crane.com](http://port-crane.com)

#### Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Metallurgical crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

#### Product Specification

- Effective Lifting Height: 9-30m
- Power Supply: 3-phase AC, 50Hz, 380V
- Brand: Lucheng Co., Ltd
- Tonnage: Customizable
- Types Of: Metallurgical Crane
- Applicable Scope: Industrial Factory Terminal
- Lifting Capacity: 1-500T
- Operation Form: Remote-controlled Operation
- Highlight: **500t metallurgical crane,  
500t factory overhead crane,  
remote control metallurgical crane**

## Product Description

### Product Description:

The Metallurgical crane is made from high-quality Steel Products, ensuring durability and longevity. It is designed to withstand the harsh conditions commonly found in steel plants and other metallurgical facilities, making it a dependable choice for any operation.

One of the most notable features of the Metallurgical crane is its customizable tonnage. This means that the crane can be tailored to meet the specific needs of your operation, ensuring optimal performance and efficiency.

The Metallurgical crane is manufactured by Lucheng Co., Ltd, a leading brand in the industry. With a reputation for excellence, Lucheng Co., Ltd has been providing top-quality lifting equipment for decades, ensuring that their customers receive the best products available.

The Metallurgical crane features remote-controlled operation, allowing operators to control the crane from a safe distance. This not only improves safety but also enhances productivity, as it allows for faster and more efficient operations.

In summary, the Metallurgical crane is a powerful, reliable, and customizable solution designed for heavy-duty lifting operations in the steel industry. Made from high-quality Steel Products and manufactured by a leading brand, this crane is a dependable choice for any operation. Its remote-controlled operation further enhances safety and productivity, making it the ideal choice for any steel plant or metallurgical facility.

### Features:

Product Name: Metallurgical crane

Applicable scope: Industrial Factory Terminal

New and old degree: Brand New

Does it support processing customization: Yes

Lifting height: 0-50m

Power Supply: 3-phase AC, 50Hz, 380V

### Technical Parameters:

Product Attribute	Value
Product Type	Metallurgical Crane
Brand	Lucheng Co., Ltd
New and Old Degree	Brand New
Operation Form	Remote-controlled Operation
Product Material	Steel Products
Increase Quantity	On Demand Customization
Tonnage	Customizable
Lifting Height	0-50m
Lifting Capacity	1-500T
Effective Lifting Height	9-30m

### Applications:

The Metallurgical crane is available in different types to cater to the diversified needs of customers. The lifting height of this crane ranges from 0-50m and the increase quantity can be customized according to the customer's requirements. The product is brand new and manufactured in China.

Metallurgical crane is ideal for lifting and transporting molten metal, heavy machinery, and equipment. The crane can be used in different applications such as steel plants, foundries, and other metallurgical industries. The crane is designed to withstand extreme temperatures and harsh environments.

The product is suitable for different scenarios such as loading and unloading of materials, lifting and transporting heavy machinery, and equipment. The crane is equipped with advanced features such as remote control, anti-sway system, and overload protection system. These features make the crane easy to operate and provide enhanced safety to the operators.

The Metallurgical crane is a highly versatile product that can be used in different occasions such as maintenance of heavy machinery, loading and unloading of materials, and transporting heavy equipment. The crane is easy to install and requires minimal maintenance.

In conclusion, the Metallurgical crane from Lucheng Co., Ltd is a highly efficient, reliable, and versatile product that is designed to cater to the industrial requirements of customers. The crane is manufactured in China and is available in different types with customized increase quantity. The crane is suitable for different occasions and scenarios and is equipped with advanced features to provide enhanced safety to the operators.

### Customization:

Customize your Metallurgical crane from Lucheng Co., Ltd to meet your specific needs. Our product is made in Shandong Province, China with a lifting capacity of 1-500T and a lifting height of 0-50m. It is designed for industrial factory terminals and operates on 3-phase

AC, 50Hz, 380V power supply. Trust us to provide you with the best Metallurgical crane for your production needs, from the production country of China.

## Support and Services:

Our Metallurgical crane product comes with comprehensive technical support and services to ensure optimal performance and minimize downtime. Our team of experts provides installation and commissioning services, as well as on-site training for your operators and maintenance personnel.

We also offer preventive maintenance services to keep your crane running smoothly and minimize the risk of breakdowns. Our technical support team is available 24/7 to provide remote troubleshooting and support, and we also offer on-site repair services to minimize downtime in case of any issues.

In addition, we offer modernization and upgrade services to improve the performance and safety of your crane. Our team can also provide spare parts and component replacement services to ensure that your crane operates at peak efficiency.

## Packing and Shipping:

### Product Packaging:

The Metallurgical crane product will be packaged carefully to ensure it arrives at your location in excellent condition. The packaging will be sturdy and will include all necessary materials to keep the product safe during transit.

### Shipping:

Once the order is placed, the product will be shipped within 3-5 business days. The shipping method will depend on your location and shipping preferences. We offer standard and expedited shipping options. Please note that additional fees may apply for expedited shipping. You will receive a tracking number once the product has been shipped so you can track its progress.

## FAQ:

### Q: What is the brand name of the metallurgical crane?

A: The brand name of the metallurgical crane is Lucheng Co., Ltd.

### Q: What is the model number of the metallurgical crane?

A: The model number of the metallurgical crane is Metallurgical crane.

### Q: Where is the metallurgical crane manufactured?

A: The metallurgical crane is manufactured in Shandong Province, China.

### Q: What is the capacity of the metallurgical crane?

A: The capacity of the metallurgical crane can vary depending on the specific model, but the maximum capacity can reach up to hundreds of tons.

### Q: What are some of the features of the metallurgical crane?

A: The metallurgical crane is designed to handle heavy loads and is equipped with a variety of safety features such as overload protection, emergency stop buttons, and limit switches. It also has a high level of precision and control, making it suitable for use in metallurgical plants.
