

Lucheng Ship To Shore Container Cranes Customizable For 17m Lifting Height

Our Product Introduction

for more products please visit us on port-crane.com

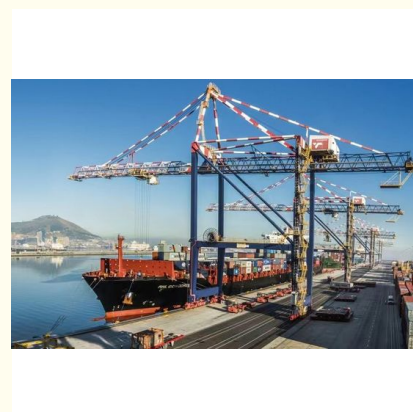

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Shore container bridge crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Brand: Lucheng Co., Ltd
- New And Old Degree: Brand New
- Production Country: China
- Power Supply Voltage: 30V
- Increase Quantity: On Demand Customization
- Applicable Scope: Workshop Production Loading And Unloading
- Working Range: Yes
- Operation Method: Wireless Remote Control
- Highlight: **ship to shore container cranes customizable, container ship to shore crane, customizable ship to shore crane**

Product Description

Product Description:

One of the most significant advantages of the Shore container bridge crane is that it is customizable on-demand. This means that the crane can be tailored to meet the specific needs of the client. This feature makes the Shore container bridge crane a versatile and adaptable solution for a wide range of businesses in the logistics and shipping industry.

The Shore container bridge crane has a lifting height of 17 meters, making it suitable for lifting and moving large containers. This height is ideal for loading and unloading containers from ships, trucks, and trains, making it an essential tool for businesses that deal with containerized cargo.

The Shore container bridge crane is manufactured by Lucheng Co., Ltd, a leading machinery manufacturer based in China. Lucheng Co., Ltd has a reputation for producing high-quality and reliable equipment, and the Shore container bridge crane is no exception. The production process is carried out in strict accordance with international standards, ensuring that the final product is of the highest quality. The Shore container bridge crane is made in China, a country known for its manufacturing expertise. Chinese manufacturers are renowned for their ability to produce high-quality equipment at a competitive price point, making them a popular choice for businesses worldwide.

In conclusion, the Shore container bridge crane is a remote-controlled crane that can be customized on-demand to meet the specific needs of the client. It has a lifting height of 17 meters and is manufactured by Lucheng Co., Ltd, a leading machinery manufacturer based in China. The Shore container bridge crane is a reliable and high-quality solution for businesses in the logistics and shipping industry, and its production in China ensures that it is available at a competitive price point.

Features:

Product Name: Shore container bridge crane

Power supply voltage: 30V

Increase quantity: On Demand Customization

Production country: China

Electric power: 7KW-60KW

Operation method: Wireless Remote Control

Technical Parameters:

Product Attribute	Value
Product Name	Shore container bridge crane
Power Supply Voltage	30V
Lifting Height	17m
Applicable Scope	Workshop Production Loading And Unloading
Operation Method	Wireless Remote Control
New and Old Degree	Brand New
Brand	Lucheng Co., Ltd
Production Country	China
Operation Form	Remote-controlled Operation
Increase Quantity	On Demand Customization
Electric Power	7KW-60KW

Applications:

Thanks to its wireless remote control system, the Shore container bridge crane can be operated safely and efficiently from a distance, allowing operators to control the crane's movements with precision. This makes it ideal for use in busy ports and other industrial settings where safety is a top priority.

The Shore container bridge crane has a wide working range, which means that it can be used to lift and move loads over a large area. This makes it a great choice for applications where space is limited or where loads need to be moved quickly and efficiently.

Some of the most common applications for the Shore container bridge crane include:

Loading and unloading containers in ports and harbors

Moving heavy materials in factories and warehouses

Lifting and positioning large components in construction projects

Transporting materials and equipment in mining and quarrying operations

Overall, the Shore container bridge crane is a reliable and efficient lifting solution that can be used in a wide range of applications. With its high lifting capacity, wireless remote control system, and wide working range, it is the perfect choice for businesses looking for a versatile and cost-effective crane solution.

Customization:

Customize your Shore container bridge crane from Lucheng Co., Ltd, model number Shore container bridge crane, manufactured in Shandong Province, China. This crane is brand new and operates with a power supply voltage of 30V, lifting up to 17m with the convenience of wireless remote control. Increase the quantity of your order with on demand customization options.

Support and Services:

The Shore container bridge crane product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our team of experts is available to provide the following services:

Installation and commissioning

Training for operators and maintenance personnel

Regular maintenance and inspections

24/7 technical support and troubleshooting

Repair and replacement of parts

Upgrades and modernization

Our goal is to provide our customers with a reliable and efficient crane solution that meets their specific needs. Contact us for more information on our technical support and services.

Packing and Shipping:

Product Packaging:

The Shore container bridge crane will be securely packaged in a wooden crate to prevent any damage during transportation.

The crate will be labeled with the product name, weight, dimensions, and handling instructions for the carrier.

Shipping:

The Shore container bridge crane will be shipped via a reputable carrier that specializes in heavy machinery transportation.

The carrier will provide tracking information so that the customer can monitor the shipment's progress.

The delivery will be made to the customer's designated address, and the carrier will coordinate with the customer for a convenient delivery time.
