- Lifting Height: 17m
- Highlight: 30v ship to shore crane,  
30v ship to shore gantry crane,  
wireless ship to shore crane

## Product Description

### Product Description:

One of the key features of the Shore container bridge crane is its lifting height, which allows for easy loading and unloading of containers. This is particularly important in busy ports and other high-volume shipping areas, where time is of the essence. With this crane, you can expect fast and efficient container handling, reducing the time and effort required for loading and unloading.

The Shore container bridge crane is also designed with safety in mind. It comes with a variety of safety features, including overload protection, emergency stop buttons, and automatic braking systems. These features help to ensure the safety of operators and other personnel on the job site, reducing the risk of accidents and injuries.

Overall, the Shore container bridge crane is an excellent choice for anyone who needs a reliable and efficient crane for container handling. With its high-quality construction, advanced safety features, and impressive lifting height, it is well-suited for use in ports, shipping yards, and other high-volume shipping areas. So if you need a crane that can handle heavy loads with ease, the Shore container bridge crane is definitely worth considering.

### Features:

Product Name: Shore container bridge crane

Production country: China

Lifting height: 17m

Working range: Yes

Applicable scope: Workshop Production Loading And Unloading

Operation form: Remote-controlled Operation

### Technical Parameters:

Working range:	Yes
Applicable scope:	Workshop Production Loading And Unloading
Power supply voltage:	30V
Lifting height:	17m
Increase quantity:	On Demand Customization
Operation form:	Remote-controlled Operation
New and old degree:	Brand New
Brand:	Lucheng Co., Ltd
Production country:	China
Operation method:	Wireless Remote Control

### Applications:

The Shore container bridge crane is designed to be used in workshop production loading and unloading scenarios. Its remote-controlled operation form allows for easy and safe handling of heavy loads, reducing the risk of accidents and injuries in the workplace.

This product is perfect for businesses that deal with containerized cargo, such as shipping companies, ports, and logistics warehouses. It can be used to load and unload containers from ships, as well as move them around the warehouse or yard area.

The Shore container bridge crane is also suitable for industries that require heavy lifting and transportation, such as construction, mining, and manufacturing. It can be used to move large and bulky items, such as steel beams, concrete blocks, and machinery.

Overall, the Shore container bridge crane is a versatile and reliable product that can be used in a wide range of industries and scenarios. Its advanced features and remote-controlled operation make it an ideal choice for businesses looking for a safe and efficient way to handle heavy loads. Contact Lucheng Co., Ltd to learn more about this product and how it can benefit your business.
