

1-500 T Brand New Gantry Crane On Rails / Rmg Crane Anti Corrosion Paint

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Gantry crane or rail crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Lifting Capacity: 1-500T
- New And Old Degree: Brand New
- Applicable Scope: Industrial Factory Terminal
- Brand: Lucheng Co., Ltd
- Tonnage: Customizable
- Increase Quantity: On Demand Customization
- Product Material: Steel Products
- Does It Support Processing Customization: Yes
- Highlight: **rmg crane anti corrosion, 500 t rmg crane, 500 t gantry crane on rails**

Product Description

Product Description:

The Gantry crane or rail crane is designed to meet the demands of customers who require customized lifting solutions. It is available in various configurations, including single and double girder cranes, to meet specific customer needs. The crane can be customized to meet specific lifting requirements, including lifting height, load capacity, and operation form. This on-demand customization feature allows customers to get the perfect crane for their specific needs.

The Gantry crane or rail crane is designed for air or remote operation, making it easy to operate from a safe distance. The air operation feature involves the use of pneumatic systems to control the crane's movements, while remote operation involves the use of a remote control. The remote control system is user-friendly and allows operators to control the crane's movements with precision.

The Gantry crane or rail crane has a lifting height of up to 50m, making it ideal for lifting heavy loads to great heights. The crane features a robust structure made of high-quality steel products, making it durable and able to withstand harsh working conditions. The steel products used in the crane's construction are designed to resist wear and tear, ensuring the crane remains in good condition for many years.

In conclusion, the Gantry crane or rail crane is a versatile and robust lifting equipment that can meet the demands of various industries. Its on-demand customization feature makes it easy to get the perfect crane for specific lifting requirements. The crane's air or remote operation feature ensures safe and precise operation, while its lifting height of up to 50m makes it ideal for lifting heavy loads to great heights. Lucheng Co., Ltd's Gantry crane or rail crane is a reliable and durable lifting solution that can withstand harsh working conditions.

Features:

Product Name: Gantry crane or rail crane

Tonnage: Customizable

Lifting Capacity: 1-500T

Painting: Anti-corrosion Paint

Applicable Scope: Industrial Factory Terminal

Production Country: China

Technical Parameters:

Gantry crane or rail crane	
Tonnage	Customizable
Applicable Scope	Industrial Factory Terminal
Increase Quantity	On Demand Customization
Painting	Anti-corrosion Paint
Brand	Lucheng Co., Ltd
Lifting Height	0-50m
New and Old Degree	Brand New
Operation Form	Air Operation/remote Operation
Processing Customization	Yes
Production Country	China

Applications:

The Gantry crane or rail crane is a versatile heavy-duty crane that finds multiple applications in various industries. It is widely used in the construction industry for building bridges, roads, and other infrastructure projects. It is an essential piece of equipment in shipyards, where it helps in lifting heavy ship components during the construction and repair of ships. The Gantry crane or rail crane is also used in the manufacturing industry for loading and unloading heavy goods, such as steel products, machinery, and equipment.

The Gantry crane or rail crane is designed for both air operation and remote operation. This makes it easy to use and control, and ensures the safety of the operator. The crane's remote control system enables the operator to move the crane to any location without any physical effort.

The Gantry crane or rail crane is a cost-effective solution for heavy lifting and transportation needs. It is durable, reliable, and requires minimal maintenance, making it an ideal choice for businesses looking for long-term investment. Whether it is in the construction industry, shipyards, or manufacturing industry, the Gantry crane or rail crane is the perfect equipment for lifting heavy loads.

In conclusion, the Gantry crane or rail crane from Lucheng Co., Ltd is a high-quality, versatile, and durable crane that can meet the heavy lifting requirements of various industries. With its air operation and remote operation capabilities, it is easy to use and control, ensuring the safety of the operator. Its processing customization feature makes it a perfect fit for businesses with specific needs, while its cost-effectiveness makes it a long-term investment. Choose Lucheng Co., Ltd's Gantry crane or rail crane for your heavy lifting needs.

Customization:

Our Gantry crane or rail crane product from Lucheng Co., Ltd is customizable to meet your lifting needs. We offer on demand customization to increase quantity and tonnage based on your specific requirements. The lifting height can be adjusted up to 50m. Our Gantry crane or rail crane product is brand new and produced in Shandong Province, China. Trust us to deliver high-quality and reliable Gantry crane or rail crane.

Support and Services:

Our technical support and services for the Gantry crane or rail crane product include:

Installation support to ensure proper setup and operation

Maintenance and repair services to keep your crane running smoothly

Training for your staff on safe and efficient operation of the crane

Consultation services for customized solutions tailored to your specific needs

We pride ourselves on providing exceptional customer service and support to ensure your satisfaction with our products. Our team of experts is available to answer any questions and provide assistance whenever you need it.

Packing and Shipping:

Product Packaging:

The gantry crane will be disassembled and packed in wooden crates or pallets.

All components will be securely fastened and protected with suitable packaging materials.

Each crate or pallet will be labeled with the product name, quantity, and handling instructions.

Shipping:

The gantry crane will be shipped via sea or air freight, depending on the customer's preference.

The shipping method will be selected based on the delivery location, urgency, and cost-effectiveness.

The customer will be provided with the shipping details, including the carrier name, vessel or flight number, and estimated delivery date.

The customer is responsible for arranging the customs clearance and paying any applicable duties or taxes.

FAQ:

Q: What is the brand name of the Gantry crane or rail crane?

A: The brand name of this product is Lucheng Co., Ltd.

Q: What is the model number of the Gantry crane or rail crane?

A: The model number of this product is Gantry crane or rail crane.

Q: Where is the Gantry crane or rail crane manufactured?

A: The Gantry crane or rail crane is manufactured in Shandong Province, China.

Q: What is the weight capacity of the Gantry crane or rail crane?

A: The weight capacity of the Gantry crane or rail crane varies depending on the specific model. Please refer to the product specifications for more information.

Q: Does the Gantry crane or rail crane come with a warranty?

A: Yes, the Gantry crane or rail crane comes with a warranty. Please refer to the warranty information provided with your purchase for more details.
