## Product Description

### Product Description:

One of the key features of this European style crane is its ability to support processing customization. With this feature, you can tailor the crane to meet your specific needs, ensuring that your project is completed with precision and accuracy.

The crane is made of high-quality steel products, ensuring durability and reliability. This makes it the perfect choice for heavy-duty lifting projects that require a strong and sturdy crane.

The European style crane has a lifting height of 0-50m, making it suitable for a wide range of projects. Whether you need to lift heavy machinery or transport materials to a high level, this crane is up to the task.

In addition to its impressive lifting height, the tonnage of the crane is customizable as well. This means that you can choose the exact tonnage that you need for your project, ensuring that the crane is the perfect fit for your needs.

Overall, our European style crane is a top-notch product that is sure to meet all of your heavy lifting needs. With its customizable colour, processing customization support, steel product material, lifting height of 0-50m, and customizable tonnage, this crane is the perfect choice for any heavy-duty project.

### Features:

Product Name: European style crane

Colour: Customizable

Tonnage: Customizable

Applicable scope: Industrial Factory Terminal

Product material: Steel Products

Operation form: Air Operation/remote Operation

### Technical Parameters:

Operation form	Air Operation/remote Operation
Lifting height	0-50m
Processing customization	Yes
Tonnage	Customizable
Product material	Steel Products
Production country	China
Increase quantity	On Demand Customization
Colour	Customizable
Applicable scope	Industrial Factory Terminal

### Applications:

One of the primary applications of the European style crane is in construction sites. It can be used to lift heavy materials and equipment, such as steel beams, concrete blocks, and prefabricated structures. Its air operation and remote operation features make it easy to control and maneuver, even in tight spaces or at heights.

In manufacturing plants, the European style crane can be used for material handling and assembly line production. Its precision and accuracy make it ideal for moving heavy machinery and components, and its customizable tonnage allows it to handle a wide range of loads. The crane's air operation and remote operation capabilities also make it suitable for hazardous environments, such as chemical plants.

Logistics and transportation companies can also benefit from the European style crane. It can be used for loading and unloading cargo from containers and trucks, as well as for moving goods around warehouses and distribution centers. The crane's customizable tonnage and increase quantity features allow it to handle a variety of goods, from small packages to large machinery.

Other applications of the European style crane include shipyards, mining operations, and power plants. Its customizable tonnage and increase quantity features, along with its air operation and remote operation capabilities, make it a versatile and reliable lifting solution for a wide range of industries and scenarios.

Customers can also choose the color of their European style crane to match their branding or aesthetic preferences. This product is made in Shandong Province, China, and can be customized to meet the specific requirements of each customer.

### Customization:

Looking for a reliable and durable crane for your industrial factory terminal? Look no further than the European style crane from Lucheng Co., Ltd. Made with high-quality steel products in our home base of Shandong Province, China, this crane is built to last and withstand even the toughest of work environments.

But that's not all - we also offer processing customization services to ensure that the European style crane meets all of your specific needs and requirements. Whether you need a different size or an additional feature, we've got you covered.

Choose Lucheng Co., Ltd for your European style crane needs and experience the highest level of quality and reliability in the industry.
