

## Double Beam Crane for Industrial Terminal with Remote Control

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Double beam crane
- Model Number: complete
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

#### Product Specification

- Lifting Height: 0-50m
- Lifting Capacity: 5-500T
- Production Country: China
- Operation Form: Remote-controlled Operation
- Brand: Lucheng Co., Ltd
- Applicable Scope: Industrial Factory Terminal
- Does It Support Processing Customization: Yes
- Increase Quantity: On Demand Customization
- Working Class: A5-A8
- Highlight: industrial double beam crane,  
industrial double girder gantry crane,  
remote control double beam crane

## Product Description

### Product Description:

The Double Beam Crane is specifically designed for industrial use where heavy loads need to be lifted and moved around. This crane is ideal for factories, construction sites, and other industrial settings where heavy lifting is a requirement.

The Double Beam Crane is a type of overhead crane that consists of two parallel runways with a traveling bridge that spans the gap between them. The bridge is supported by a pair of trolleys that move along the two runways. The Double Beam Crane is a versatile piece of equipment that can be used for a variety of lifting tasks.

With its remote-controlled operation, the Double Beam Crane is easy and convenient to use. The operator can control the crane from a safe distance, which ensures the safety of both the operator and the cargo being lifted. The remote control allows the operator to move the crane with precision, which is particularly useful when working with sensitive or fragile cargo.

The Double Beam Crane is a durable and reliable piece of equipment that is made from high-quality steel products. It is designed to withstand the rigors of industrial use, and its robust construction ensures that it can handle heavy loads with ease. The Double Beam Crane is a cost-effective solution for heavy lifting tasks, and it can help to improve productivity and efficiency in industrial settings.

In summary, the Double Beam Crane is a versatile and reliable piece of equipment that is ideal for heavy lifting tasks in industrial settings. Its remote-controlled operation, high lifting capacity, and durable construction make it an excellent investment for factories, construction sites, and other industrial settings. If you are looking for a powerful and reliable crane, the Double Beam Crane is an excellent choice.

### Features:

Product Name: Double Beam Crane

Does it support processing customization: Yes

Lifting capacity: 5-500T

Lifting height: 0-50m

Product material: Steel Products

Increase quantity: On Demand Customization

### Technical Parameters:

Type	Double Beam Crane
Brand	Lucheng Co., Ltd
Operation Form	Remote-controlled Operation
New and Old Degree	Brand New
Product Material	Steel Products
Increase Quantity	On Demand Customization
Tonnage	Customizable
Lifting Height	0-50m
Lifting Capacity	5-500T
Production Country	China

### Applications:

There are various occasions and scenarios where the Double Beam Crane can be used. For instance, in the construction industry, this crane can be used for lifting and moving heavy construction materials, such as steel beams, concrete blocks, and precast panels. In manufacturing settings, this crane can be used for transporting heavy machinery and equipment, such as engines, turbines, and generators. The Double Beam Crane can also be used in the shipping industry for loading and unloading cargo from ships and containers.

This product is highly customizable and can be designed to fit specific needs and requirements. The increase quantity of this product is on demand customization, which means that customers can request modifications to fit their specific use cases. This makes the Double Beam Crane a versatile product that can be used in various settings and scenarios.

In summary, the Double Beam Crane is a high-quality product that is suitable for heavy-duty tasks. It is manufactured by Lucheng Co., Ltd, a reputable brand in the industry. The lifting capacity of this product ranges from 5 to 500 tons, and it is built with durable steel products. With its customizable features, the Double Beam Crane can be used in various occasions and scenarios, making it a valuable tool in various industries.

### Customization:

Brand Name: Double Beam Crane

Model Number: Complete

Place of Origin: China

Applicable Scope: Industrial Factory Terminal

New and Old Degree: Brand New

Type: Double Beam Crane  
Product Material: Steel Products  
Brand: Lucheng Co., Ltd

Upgrade your industrial equipment with a Double Beam Crane, Double Beam Crane, Double Beam Crane! Contact us now to discuss your customization needs.

## Support and Services:

The Double Beam Crane is a heavy-duty lifting equipment designed to handle large loads. Our product technical support team is available to provide assistance with any questions or issues you may have with your crane. Our services include:

Installation guidance and support

Regular maintenance and inspection services

Repair services for any damages or malfunctions

Upgrade and modernization services to improve the performance and efficiency of your crane

We understand the importance of keeping your operations running smoothly and safely. That's why we offer comprehensive technical support and services to ensure that your Double Beam Crane operates at its best. Contact us for more information.

## Packing and Shipping:

Product Packaging:

Double Beam Crane

Assembly Instructions

Warranty Information

Shipping:

Ships within 2-3 business days

Free shipping within the continental United States

International shipping available at an additional cost

## FAQ:

Q: What is the weight capacity of the Double Beam Crane?

A: The weight capacity of the Double Beam Crane varies depending on the model number you choose. Please refer to the product specifications for details.

**Q: Where is the Double Beam Crane manufactured?**

A: The Double Beam Crane is manufactured in China.

**Q: Is installation included when I purchase the Double Beam Crane?**

A: Installation is not included with the purchase of the Double Beam Crane. However, we can provide installation instructions and support if needed.

**Q: What is the warranty period for the Double Beam Crane?**

A: Warranty information is not included in this Q&A. Please refer to the warranty information provided with your purchase.

**Q: Can I customize the Double Beam Crane to fit my specific needs?**

A: Yes, we offer customization options for the Double Beam Crane. Please contact us for more information.
