

## Fully Customizable 5-500T Double Beam Crane With Remote Controlled Operation

Our Product Introduction

for more products please visit us on [port-crane.com](http://port-crane.com)

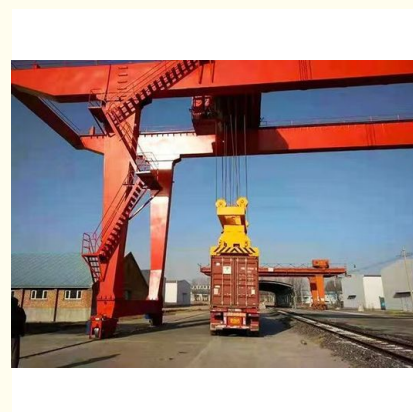

### Basic Information

- Place of Origin: China
- Brand Name: Double beam crane
- Model Number: complete
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

### Product Specification

- Does It Support Processing Customization: Yes
- New And Old Degree: Brand New
- Increase Quantity: On Demand Customization
- Operation Form: Remote-controlled Operation
- Tonnage: Customizable
- Lifting Capacity: 5-500T
- Product Material: Steel Products
- Applicable Scope: Industrial Factory Terminal
- Working Class: A5-A8
- Highlight: **500t double beam crane,  
500t double girder gantry crane,  
remote controlled double beam crane**

## Product Description

### Product Description:

The Double Beam Crane is designed for remote-controlled operation, which ensures safe and efficient lifting operations. The remote control allows the operator to control the crane from a safe distance, minimizing the risk of accidents and injuries. The remote-controlled operation also ensures that the crane can be operated in tight spaces, making it ideal for use in warehouses, factories, and construction sites.

The Double Beam Crane is a customizable lifting equipment that can be tailored to meet specific customer requirements. The tonnage of the crane can be customized to meet the lifting needs of different industries. This makes it an excellent choice for companies looking for a flexible and versatile lifting solution.

The Double Beam Crane is proudly made in China, a country renowned for its high-quality manufacturing standards. The crane is built to the highest quality standards and undergoes rigorous testing to ensure that it meets all safety and performance requirements. This ensures that the Double Beam Crane is a reliable and durable lifting equipment that can withstand the toughest working conditions.

In summary, the Double Beam Crane from Lucheng Co., Ltd is a high-quality and reliable lifting equipment that is ideal for heavy-duty lifting operations. Its remote-controlled operation, customizable tonnage, and sturdy construction make it an excellent choice for a variety of applications. The Double Beam Crane is proudly made in China, ensuring that customers get a high-quality product that is built to last.

### Features:

Product Name: Double Beam Crane

Lifting height: 0-50m

Tonnage: Customizable

Processing Customization: Yes

Product Material: Steel Products

Operation Form: Remote-controlled Operation

### Technical Parameters:

New and old degree	Brand New
Lifting capacity	5-500T
Product material	Steel Products
Tonnage	Customizable
Lifting height	0-50m
Type	Double Beam Crane
Brand	Lucheng Co., Ltd
Operation form	Remote-controlled Operation
Increase quantity	On Demand Customization
Processing customization support	Yes

### Applications:

The Double Beam Crane is a perfect solution for heavy-duty lifting and material handling operations. It can be used in various industrial applications, including steel mills, power plants, shipyards, and warehouses. The Double Beam Crane is best suited for lifting heights of up to 50m, making it ideal for tall structures and buildings.

The tonnage of the Double Beam Crane is customizable, which means that it can lift loads of varying weights and sizes. This feature makes it a versatile equipment that can handle various types of cargo, including containers, machinery, and raw materials. The Double Beam Crane can also be operated remotely, providing the operator with a safe and efficient way of controlling the crane's movements.

The Double Beam Crane is designed to meet the highest safety standards, ensuring that it can operate in the most demanding industrial environments. Its robust construction and advanced features make it a reliable and durable equipment that can withstand heavy loads and constant use.

In conclusion, the Double Beam Crane is a highly versatile and reliable equipment that is ideal for various industrial and factory terminal applications. Its customizable tonnage, remote-controlled operation, and lifting height make it a perfect choice for heavy-duty lifting and material handling operations. If you are looking for a reliable and efficient equipment for your industrial needs, the Double Beam Crane is the perfect choice.

### Customization:

Brand Name: Double Beam Crane

Model Number: Complete

Place of Origin: China

Does it support processing customization: Yes

Production Country: China

Lifting capacity: 5-500T  
New and Old Degree: Brand New  
Brand: Lucheng Co., Ltd  
Double Beam Crane, Double Beam Crane, Double Beam Crane

## Support and Services:

## Packing and Shipping:

Product Packaging:

Double Beam Crane

Instruction Manual

Hardware for Assembly

Shipping:

Ships within 2-3 business days

Free standard shipping within the USA

International shipping available at an additional cost

## FAQ:

Q: What is the weight capacity of the Double Beam Crane?

A: The weight capacity of the Double Beam Crane varies depending on the specific model. Please refer to the product specifications for the weight capacity of the model you are interested in.

Q: Where is the Double Beam Crane manufactured?

A: The Double Beam Crane is manufactured in China.

Q: Does the Double Beam Crane come with a warranty?

A: Yes, the Double Beam Crane comes with a standard manufacturer's warranty. Please refer to the warranty information provided with your purchase for more details.

Q: Can the Double Beam Crane be used outdoors?

A: Yes, the Double Beam Crane can be used outdoors. However, it is important to take proper precautions to protect the crane from weather and environmental factors that may cause damage.

Q: Is installation and assembly included with the purchase of the Double Beam Crane?

A: No, installation and assembly are not included with the purchase of the Double Beam Crane. It is recommended that a professional installer or technician perform the installation and assembly for optimal safety and performance.
