

## Lucheng Double Beam Bridge Crane With Customizable Lifting Height 0-50m

Our Product Introduction

for more products please visit us on [port-crane.com](http://port-crane.com)

### Basic Information

- Place of Origin: China
- Brand Name: Double beam crane
- Model Number: complete
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

### Product Specification

- Type: Double Beam Crane
- Increase Quantity: On Demand Customization
- Operation Form: Remote-controlled Operation
- Production Country: China
- Applicable Scope: Industrial Factory Terminal
- Brand: Lucheng Co., Ltd
- Lifting Height: 0-50m
- Tonnage: Customizable
- Working Class: A5-A8
- Highlight: 50m double beam eot crane,  
50m double beam bridge crane,  
a5 double beam eot crane

## Product Description

### Product Description:

The Double Beam Crane is specifically designed to meet the needs of industrial factories, providing reliable and efficient lifting capabilities for a wide range of applications. Whether you're dealing with heavy machinery, raw materials, or finished products, this crane is up to the task.

One of the key features of this crane is its double beam construction, which provides enhanced stability and strength compared to single beam cranes. This allows it to handle larger loads and operate at higher lifting heights - up to 50m in fact!

Of course, every industrial factory is different, which is why we offer customizable tonnage options for our Double Beam Crane. You can choose the exact tonnage you need to meet your specific requirements, ensuring that your crane is always up to the task.

Another important feature of the Double Beam Crane is its ability to support processing customization. This means that we can work with you to design and build a crane that is perfectly suited to your unique needs and specifications.

Overall, the Double Beam Crane is an essential piece of equipment for any industrial factory that needs reliable and efficient lifting capabilities. With its double beam construction, customizable tonnage options, and ability to handle lifting heights up to 50m, this crane is the perfect solution for all your lifting needs.

### Features:

Product Name: Double Beam Crane

Production Country: China

Product Material: Steel Products

Operation Form: Remote-controlled Operation

Lifting Height: 0-50m

New and Old Degree: Brand New

### Technical Parameters:

Lifting capacity	5-500T
Brand	Lucheng Co., Ltd
New and old degree	Brand New
Applicable scope	Industrial Factory Terminal
Increase quantity	On Demand Customization
Lifting height	0-50m
tonnage	Customizable
type	Double Beam Crane
Product material	Steel Products
Operation form	Remote-controlled Operation

### Applications:

One of the primary applications of the Double Beam Crane is in construction sites. This crane can lift heavy materials to high altitudes with ease, making it an essential tool for building skyscrapers and other tall structures. Additionally, it can be used to move materials horizontally, making it a versatile option for various construction projects.

The Double Beam Crane is also an excellent choice for manufacturing plants. With remote-controlled operation, workers can safely move heavy materials from one location to another without putting themselves in harm's way. This product can also be used for loading and unloading goods from trucks and ships, making it ideal for transportation hubs and logistics centers.

Another application of the Double Beam Crane is in the mining industry. This product can withstand the harsh conditions of mines and can lift and move heavy materials with ease. It can be used to transport materials from the mine to the processing plant or to move equipment around the site.

Overall, the Double Beam Crane is a reliable product that can be used in various industries. Its customizable tonnage, on-demand customization, and remote-controlled operation make it a versatile option for any project. Its production in China ensures that it is of the highest quality, and its brand name is synonymous with excellence in the crane industry.

### Customization:

Brand Name: **Double Beam Crane**

Model Number: **complete**

Place of Origin: **China**

Product material: **Steel Products**

Lifting height: **0-50m**

Operation form: **Remote-controlled Operation**

Brand: **Lucheng Co., Ltd**

Processing customization support: **Yes**

## Support and Services:

Our Double Beam Crane product comes with comprehensive technical support and services to ensure smooth operations and maximum uptime. Our team of skilled technicians and engineers are available to provide the following services:

Installation and commissioning of the crane

Regular maintenance and inspections

Repairs and upgrades

Operator training and certification

24/7 emergency support

We also offer customized solutions to meet specific customer needs and requirements. Contact us for further details.

## Packing and Shipping:

Product Packaging:

Double beam crane

Assembly instructions

Required nuts, bolts, and tools

Shipping:

Weight: 500 pounds

Dimensions: 10 feet x 5 feet x 3 feet

Shipping method: Freight

Shipping time: 5-7 business days

## FAQ:

Q: What is the weight capacity of the Double Beam Crane?

A: The weight capacity of the Double Beam Crane varies based on the model number. Please refer to the product specifications for more information.

Q: What is the warranty on the Double Beam Crane?

A: Warranty information can be found on our website or by contacting our customer service department.

Q: Where is the Double Beam Crane manufactured?

A: The Double Beam Crane is manufactured in China.

Q: Is installation included with the purchase of the Double Beam Crane?

A: Installation is not included with the purchase of the Double Beam Crane. However, installation services can be arranged for an additional fee.

Q: How do I choose the right Double Beam Crane model for my needs?

A: It is important to consider the weight and size of the objects you will be lifting, as well as the height and distance required for the crane to reach. Our customer service department can assist you in selecting the appropriate model number for your specific needs.
