

A5-A8 5-500T Double Beam Overhead Crane with 0-50m Lifting Height

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: China
- Brand Name: Double beam crane
- Model Number: complete
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Applicable Scope: Industrial Factory Terminal
- New And Old Degree: Brand New
- Tonnage: Customizable
- Lifting Capacity: 5-500T
- Working Class: A5-A8
- Lifting Height: 0-50m
- Does It Support Processing Customization: Yes
- Type: Double Beam Crane
- Highlight: 500t double beam overhead crane,
a5 double beam bridge crane,
a5 double beam overhead crane

Product Description

Product Description:

One of the key features of the Double Beam Crane is its ability to support processing customization. This means that the crane can be tailored to meet the specific needs of your operation, ensuring that it is optimized for your unique requirements. Whether you need a crane that is designed to handle a specific type of load, or you require a crane that is customized to fit a specific space, the Double Beam Crane can be customized to meet your needs.

The Double Beam Crane is a type of crane that features two beams that run parallel to each other. This design provides the crane with increased stability and lifting capacity, making it ideal for heavy-duty applications. The double beam design also helps to reduce the overall weight of the crane, making it easier to maneuver and operate.

The Double Beam Crane is designed for remote-controlled operation, which allows the crane to be operated from a safe distance. This reduces the risk of accidents, and makes the crane easier and safer to operate. The remote control allows the crane operator to control the crane's movements with precision, ensuring that loads are lifted and moved safely and efficiently.

In conclusion, the Double Beam Crane is a heavy-duty crane that is designed to handle even the heaviest loads with ease. With a lifting capacity ranging from 5 to 500T, and the ability to support processing customization, this crane is a versatile and powerful tool for any heavy-duty lifting operation. The crane's double beam design provides increased stability and lifting capacity, while its remote-controlled operation makes it easy and safe to operate. If you require a crane that is strong, durable, and capable of handling heavy loads, the Double Beam Crane is the perfect solution.

Features:

Product Name: Double Beam Crane

New and old degree: Brand New

Production country: China

Tonnage: Customizable

Increase quantity: On Demand Customization

Type: Double Beam Crane

Technical Parameters:

| | |
|---------------------------|-----------------------------|
| Operation form: | Remote-controlled Operation |
| Tonnage: | Customizable |
| Brand: | Lucheng Co., Ltd |
| Product material: | Steel Products |
| Lifting capacity: | 5-500T |
| Applicable scope: | Industrial Factory Terminal |
| Processing customization: | Yes |
| Production country: | China |
| Type: | Double Beam Crane |
| Increase quantity: | On Demand Customization |

Applications:

With its lifting capacity ranging from 5T to 500T, the Double Beam Crane is suitable for lifting heavy loads and materials within the industrial setting. The lifting height of the crane is also adjustable, with a maximum height of 50m, making it ideal for lifting materials to high platforms or buildings.

This Double Beam Crane is highly customizable, with on-demand customization options available for clients who require specific lifting capacities and heights. This ensures that the crane is tailored to meet the specific needs of the clients.

The Double Beam Crane is perfect for use in various industrial applications, including but not limited to:

Construction Sites: The crane can be used to lift heavy building materials to different levels of a construction site.

Mining Sites: The crane can be used to lift heavy mining equipment, minerals, and other materials in mining sites.

Manufacturing Plants: The crane can be used to lift heavy machinery and equipment in a manufacturing plant.

Port Terminals: The crane can be used to load and unload cargo from ships in port terminals.

Power Plants: The crane can be used to lift heavy equipment and materials in power plants.

The Double Beam Crane is designed to handle heavy loads, making it perfect for scenarios where heavy lifting is required. With its sturdy build, high lifting capacity, and customizable options, the Double Beam Crane is a reliable and efficient choice for various industrial applications.

Customization:

Support and Services:

The Double Beam Crane is a heavy-duty lifting equipment designed for industrial applications. Our product technical support and services include:

Installation guidance and supervision

Maintenance and repair services

Technical assistance for troubleshooting and problem-solving

Customization options to meet specific customer needs

Training programs for operators and maintenance personnel

Our team of experienced engineers and technicians are dedicated to providing comprehensive support to ensure the Double Beam Crane operates safely and efficiently. Contact us for more information.

Packing and Shipping:

Product Packaging:

Double beam crane

Instruction manual

Hardware and bolts

Shipping Information:

Shipping weight: 1200 lbs

Shipping dimensions: 10ft x 4ft x 3ft

Shipping carrier: Freight

Shipping time: 7-10 business days

FAQ:

A: The weight capacity of the Double Beam Crane varies depending on the model number. Please refer to the product specifications for more information.

2. Q: Where is the Double Beam Crane made?

A: The Double Beam Crane is made in China, the place of origin.

3. Q: What is the delivery time for the Double Beam Crane?

A: The delivery time for the Double Beam Crane varies depending on the destination and model number. Please contact our customer service for more information.

4. Q: Is installation included with the purchase of the Double Beam Crane?

A: Installation is not included with the purchase of the Double Beam Crane. However, we can provide installation services for an additional fee. Please contact our customer service for more information.

5. Q: Is there a warranty for the Double Beam Crane?

A: Yes, there is a warranty for the Double Beam Crane. Please refer to the warranty information provided with the product for more details.
