

Processing Overhead Industrial Cranes Grab Crane With Steel Trolley Travelling 50 M/Min

Our Product Introduction

for more products please visit us on port-crane.com

Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Grabbing crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

Product Specification

- Does It Support Processing Customization: Yes
- Trolley Traveling Speed: 50 M/min
- Applicable Scope: Industrial Factory Terminal
- Operation Form: Remote-controlled Operation
- New And Old Degree: Brand New
- Production Country: China
- Brand: Lucheng Co., Ltd
- Product Material: Steel Products
- Highlight: **processing overhead industrial cranes, processing grab crane, steel trolley grab crane**

Product Description

Product Description:

One of the standout features of the Grabbing crane is its ability to support processing customization. Whether you need special attachments or modifications to fit your specific needs, our team can work with you to create a custom solution that meets your requirements. Additionally, the Grabbing crane has a flexible increase quantity option, allowing you to adjust your order based on your unique needs.

Remote-controlled operation makes the Grabbing crane simple and easy to use. With precision controls, you can manipulate the crane with ease, even from a distance. This feature also makes it easy to operate the crane in tight spaces or hazardous environments, keeping your workers safe and productive.

When it comes to lifting capacity, the Grabbing crane is a powerhouse. With the ability to lift anywhere from 1 to 500 tons, this crane can handle even the heaviest loads. Whether you're working in construction, manufacturing, or any other industry that requires heavy lifting, the Grabbing crane is up to the task.

In summary, the Grabbing crane is a versatile and reliable solution for all your heavy lifting needs. With its customizable options, remote-controlled operation, and impressive lifting capacity, it's the ideal choice for any job. Contact us today to learn more about how the Grabbing crane can help you improve your operations and get the job done right.

Features:

Product Name: Grabbing crane

Increase quantity: On Demand Customization

Brand: Lucheng Co., Ltd

Boom Length: 30 Meters

Lifting capacity: 1-500T

New and old degree: Brand New

Technical Parameters:

Product Attribute	Value
Grabbing crane Type	Grabbing crane
Boom Length	30 Meters
Customization Processing Support	Yes
New and Old Degree	Brand New
Operation Form	Remote-controlled Operation
Production Country	China
Brand	Lucheng Co., Ltd
Applicable Scope	Industrial Factory Terminal
Lifting Capacity	1-500T
Span Length	On Request
Increase Quantity	On Demand Customization

Applications:

One of the key features of the Grabbing crane is its fast trolley traveling speed of 50 M/min. This allows it to quickly and efficiently move loads from one location to another, saving time and increasing productivity.

Due to its versatility and strength, the Grabbing crane is ideal for a variety of different occasions and scenarios. Some of the most common applications for this crane include:

Construction sites: The Grabbing crane can lift and move heavy building materials, such as steel beams, concrete blocks, and piping, making it an essential tool for any construction project.

Ports and harbors: With its powerful grabbing mechanism, the Grabbing crane can easily load and unload cargo from ships, making it a valuable asset for any port or harbor.

Mining operations: The Grabbing crane can lift and transport large amounts of ore and other materials, making it an essential tool for mining companies looking to increase productivity.

Manufacturing facilities: The Grabbing crane can move heavy machinery and equipment around the manufacturing floor, making it easier to set up and reconfigure production lines as needed.

With a boom length of 30 meters, the Grabbing crane has a wide range of motion, making it perfect for reaching materials in hard-to-reach areas. Additionally, the crane can be customized on demand to meet the specific needs of any job. Whether you're lifting heavy loads on a construction site or moving cargo in a port, the Grabbing crane from Lucheng Co., Ltd is the ideal solution for all your lifting and moving needs.

Customization:

Support and Services:

Our Grab crane product comes with comprehensive technical support and services to ensure optimal performance and reliability. Our team of experienced technicians and engineers are available to provide assistance and guidance for installation, operation, and maintenance of the equipment.

We also offer training programs to ensure that operators are properly trained on the safe and efficient use of the equipment. In addition, we provide troubleshooting and repair services to quickly address any issues that may arise.

Our commitment to customer satisfaction means that we are dedicated to providing timely and effective support to ensure that our Grab crane product meets your needs and exceeds your expectations.

Packing and Shipping:

Product Packaging:

The grab crane will be packed securely in a sturdy cardboard box

All components will be wrapped in bubble wrap to prevent damage during shipping

The box will be labeled with product name, quantity, and handling instructions

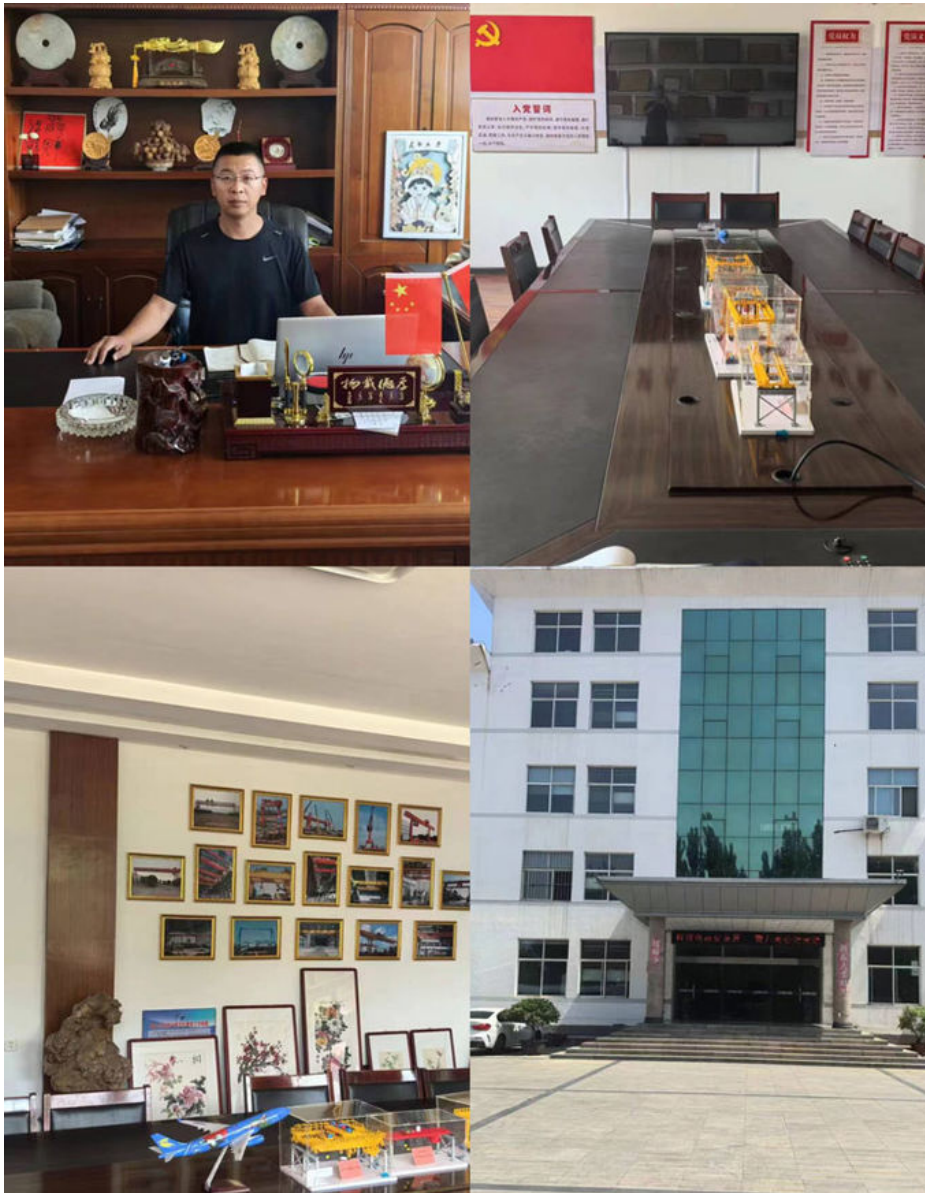

Product Shipping:

The grab crane will be shipped via a reputable courier service

Customers will receive a tracking number to monitor the delivery status

Shipping fees will be determined by the destination and weight of the package

Delivery times will vary based on the destination

FAQ:

Q: What is the brand name of the grab crane product?

A: The brand name of the grab crane product is Lucheng Co., Ltd.

Q: What is the model number of the grab crane?

A: The model number of the grab crane is Grabbing crane.

Q: Where is the grab crane manufactured?

A: The grab crane is manufactured in Shandong Province, China.

Q: What is the maximum weight capacity of the grab crane?

A: The maximum weight capacity of the grab crane varies based on the specific model. Please refer to the product specifications for more information.

Q: What are the applications of the grab crane?

A: The grab crane is commonly used for handling bulk materials such as coal, sand, gravel, and scrap metal in industries such as mining, construction, and shipping.
