

## Customized Manufactured Steel Products Grab Crane For Industrial Terminal 30M Boom

Our Product Introduction

for more products please visit us on [port-crane.com](http://port-crane.com)

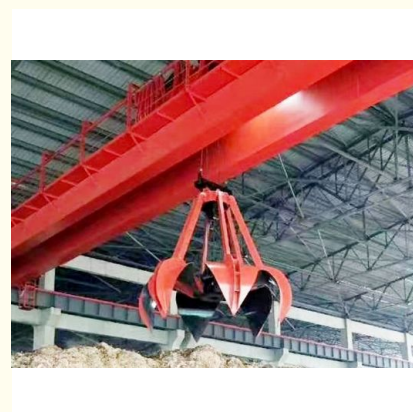

### Basic Information

- Place of Origin: Shandong Province, China
- Brand Name: Lucheng Co., Ltd
- Model Number: Grabbing crane
- Minimum Order Quantity: 1
- Price: interview
- Delivery Time: 10-15 days shipping
- Payment Terms: L/C, T/T
- Supply Ability: 3set/week

### Product Specification

- Trolley Traveling Speed: 50 M/min
- Product Material: Steel Products
- Lifting Capacity: 1-500T
- Boom Length: 30 Meters
- Increase Quantity: On Demand Customization
- Applicable Scope: Industrial Factory Terminal
- Production Country: China
- Operation Form: Remote-controlled Operation
- Highlight: **customized grab crane,  
customized grab bucket crane, 30m grab crane**

## Product Description

### Product Description:

Our Grabbing crane is designed to handle a wide range of materials, making it a versatile and flexible tool for any factory. It supports processing customization, which means that it can be tailored to meet the unique needs and requirements of your specific operation. Our Grabbing crane comes with a Span Length that is customizable on request, allowing you to choose the perfect size for your factory. We use only the highest quality steel products in the manufacturing of our Grabbing crane, ensuring that it is strong, durable, and resistant to wear and tear.

Our Grabbing crane is the perfect tool for handling bulk materials such as coal, ore, scrap metal, and other materials commonly found in industrial factories. It is designed to grab and lift materials with ease, making it an essential tool for any manufacturing operation. Overall, our Grabbing crane is a reliable and efficient tool that can help streamline your factory operations and improve productivity. Whether you are looking to transport materials quickly and efficiently or need a tool to handle bulk materials, our Grabbing crane is the perfect solution for your needs.

### Features:

Product Name: Grabbing crane

Lifting height: 0-50m

Operation form: Remote-controlled Operation

Applicable scope: Industrial Factory Terminal

New and old degree: Brand New

Span Length: On Request

### Technical Parameters:

New and old degree:	Brand New
Production country:	China
Types of:	Grabbing Crane
Product material:	Steel Products
Applicable scope:	Industrial Factory Terminal
Operation form:	Remote-controlled Operation
Boom Length:	30 Meters
Application:	Warehouse Workshop Hoisting
Span Length:	On Request
Increase quantity:	On Demand Customization

``` Here's the revised version with the repeated keyword "Grabbing Crane" removed: ```

New and old degree:	Brand New
Production country:	China
Type:	Grab Crane
Material:	Steel Products
Applicable scope:	Industrial Factory Terminal
Operation form:	Remote-controlled Operation
Boom Length:	30 Meters
Application:	Warehouse Workshop Hoisting
Span Length:	On Request
Increase quantity:	On Demand Customization

### Applications:

One of the key applications of the Grabbing Crane is in the loading and unloading of goods in industrial settings. The crane's superior lifting capacity makes it ideal for moving heavy loads, such as containers, machinery, and raw materials. It can be used to transport these items from one location to another, or to load them onto trucks or ships for transportation to other facilities.

The Grabbing Crane is also well-suited for use in construction projects. Its boom length of 30 meters makes it an excellent option for reaching high places, such as the upper levels of buildings or other structures. It can be used to lift and position materials, such as steel beams, concrete blocks, and other building materials, with ease and precision.

In addition to its industrial and construction applications, the Grabbing Crane can also be used in port and terminal settings. Its high lifting capacity makes it ideal for moving heavy cargo, such as containers or bulk materials, onto and off of ships. The crane can be operated from a fixed position or mounted on a mobile platform, making it easy to position and use in a variety of settings. Overall, the Grabbing Crane is a reliable and versatile product that is well-suited for a variety of heavy lifting applications. Whether you are working in an industrial factory, on a construction site, or in a port or terminal setting, this crane is sure to meet your needs. With its superior lifting capacity, long boom length, and high-quality construction, the Grabbing Crane is an excellent choice for any heavy lifting task.

### Customization:

Brand Name: Lucheng Co., Ltd  
Model Number: Grabbing crane  
Place of Origin: Shandong Province, China  
Operation form: Remote-controlled Operation  
Does it support processing customization: Yes  
Product material: Steel Products  
Types of: Grabbing Crane  
Application: Warehouse Workshop Hoisting

### Support and Services:

The Grab crane product comes with comprehensive technical support and services to ensure the smooth operation of the equipment. Our team of experts is available to provide assistance with installation, maintenance, and troubleshooting of the product. We offer regular maintenance and inspection services to keep the product in optimal condition and minimize downtime. In case of any technical issues, our support team is available 24/7 to provide remote or on-site assistance to resolve the problem as quickly as possible. Additionally, we provide training services to help users understand and operate the Grab crane product effectively and safely. Our training programs cover topics such as equipment operation, safety measures, and maintenance best practices.

### Packing and Shipping:

Product Packaging:  
1 Grab crane  
Instruction manual  
Protective foam padding  
Shipping:  
Shipping method: Standard  
Estimated delivery time: 5-7 business days  
Shipping cost: \$10

### FAQ:
